EDITORIAL & SWAN SONG.

Many thanks to W6LTX for sending me the minutes of the previous meeting, and sorry I am not using their entire contents Buck, But would like to point out that the high-light of the meeting was an interesting and enlightening talk by SVØWQ/DL4AAP....Since there were not enough members present to vote on the Friday night meeting, a petition and balot was sent out, and the vote will be tallied at this meeting, at the Coit Hotel Thursday Sept. 11th...Remember! to get that card in, and in order for it to count, your dues must be paid up, and the card must be signed.....

- - - - - - - - - - - - -

It is with a feeling of mised emotions that I must state that I have to resign as Editor of the DX'er, due to preasure of work, and plus the fact, that I feel like the man who came to dinner, in that I took the job for a month, and ended up having it for a year. I must say that I have enjoyed the job, and with the new equipment, it is much easier than it was I started. I would like to thank the members , and I am sure that my successor will be gratefull also, as it has turned a grimy tedious chore, into a pleasant task, from endless hours of hand cranking ending up looking like a bathless pressman to a few minutes of watching the wheels go round in a clean suit. Hours of addressing ~~either by hand~~, to a few minutes of pulling on a handle, again many thanks.....

But before I turn in my card, I have a few gripes that I must get off my chest. First; The growing tendency to compare the DX'er to another excellent publication. If you stop and analize it for a moment, this is a club paper, not an international DX magazine, and it was never intended to be anything else. To compare the two, is like comparing CQ to QST, or the Country monthly to a metropolitan Daily paper. They all have their place, but certainly are not comparable...Second; The same fellows that do all the griping are the ones that send the other publication the good news, and nil to the DX'er or at the most a bit of trivia. If it were not for these outstanding men in our ranks, the other paper would have nothing or at the most very little over the DX'er....Last; When I took the job I stated, that I was not an Editor, and would do the best I could with the job, for this reason, I feel that someone else take over the reins for a while.....I would like to thank all the regular contributors to the DX'er, sorry I do not have room to mention them all, but you know who you are, and please continue to do so with the new man, and I am sure that we will have a paper that we can all be proud of. The opinions expressed above are my own, and do not reflect those of the club, or its members.....

73, and continued DX Frank
