How To Update Your DX Ladder Numbers

- **Participation by members only. Count QSOs for which you have LOTW-QSLs or QSL cards.**
- Entries in the NCDXC DXCC League at Clublog can be imported into DX Ladder if the member is registered in the league at www.clublog.org and "Show in Leagues" is set to "Yes". To change "Show in Leagues", go to the Settings > Callsigns tab.
- As an alternative to ClubLog, updates can be sent via webform at www.ncdxc.org/pages/dxladder.html . After a webform is sent, the member's Clublog data is no longer used for DX Ladder unless requested.
- The "C/W" column indicates whether Clublog (CL) or Webform (WF) data is used.
- The "DXCC" column includes current and deleted entities, the "Curr" column includes current only.
- "Chal" (Challenge) is the sum of the current entity band counts and is automatically calculated.
- The "+" columns indicate increases in the previous columns compared to last month.
- The DX Ladder is maintained by Phil W6PK and can be viewed at www.ncdxc.org/pages/dxladder.html .
