JULY and AUGUST ISSUES 1950

Iss. 7 & 8, Vol. 3

My humble apologies Gents for being so very late on the DX'er but then the pressure of business has prevented any spare time for any DX'ing much less any work on the DX'er itself. However, DX on 10 and especially 20 being what it is at this time, theres not much in the way of news which could be placed in the magazine which would help anyone.

It certainly looks as though we out here on the West Coast and the Bay region in particular, are feeling the low ebb of good DX openings and the rumor has been getting around that as far as 10 and 20 is concerned 'We ain't seen the worst yet'. The real low ebb for DX openings is to be worse next year. There have been, however, a few fair European openings which some of the boys have been taking full advantage of for our club DX contest and it has allowed a few stations to pile up an astronomical score but, as a general run the old DX just hasn't been there.

With the increase sales and interest being shown in TV it looks like a lot of cleaning up is in order. True, you may lick TVI in a set a half a block away only to get a summons on one two blocks distant which picks up some output. Oh well, we can lick TVI if only there was some DX worth working when you got through clearing the sets.

This issue, or shouldbwe say, combined issues of the DX'er bows out your editor. At least temporarily as stated before, press of other activities which after all bring in the bread and butter, have crimped part of our style as far as hamming has been concerned. Lets hope its being just a temporary thing. In turning the DX'er over to a new crew I would like to thank all the gang that sent in the DX news, and others who have helped each month, a specially W6MBK, who has been mimeographing the DX'er each month, W6TI who each month addresses all the envelopes and has been very faithful on a lot of the QTH's given in each issue. Thanks Gang, and heres hoping the DX'er grows better and better.

LX4FS

If you contacted him, QSL via that other LX station LX1JW. Thus far we don't know LX1JW's QTH.

From W6AM we learn that Frank(W6PZ) has returned to KX6BA. Also that the op at VRLC is awaiting the arrival of a modulation transformer and then will be able to give the boys a two way fone QSO.

FB8XX and FB8ZZ

According to W6VE, the cards from contacts with the above should be here by this time. Also some good news is that FB8XX is returning to the Kerguleins in December and will be there for a year so there should be a chance of contacting him if you have not already done so. That is if band conditions improve.

FD3RG is not active at the present time but when he is on his frequency is 14040 and best time is around 1930 GMT. Jean is handling QSL cards for FB8XX, FB8ZZ and also FB8AX.

PK6XG--QTH.

W6TI passes along this QTH:

W.Willemse,
Borssenburgplein g-1
Amsterdam-Zuid,
Holland.

Obvious you will note that PK6XG has left the Celebes but if you did not receive his QSL card try him at the above address.

VR4AD

You might give a listen in the a.m. around 7 or so for the above T9 signal on 14195 kc.

PJ1UF

STRICTLY undercover..Do not mention Radio on your envelope but he may be addressed as:

John,
Box 80,
St. Nicholas,
Aruba, N.W.I.

His frequency: 14030-----T9.

SUGGESTION

With DX so punko, the present DX contest sponsored by the club for club members has been a step in the right direction to keep up interest in what little DX there is however, the meetings have fallen a little flat in that we don't have the DX to discuss. It was suggested by a couple of the gang, that we go after more speakers on varied subjects from antennas to TVI elimination so it is up to the gang to discuss this at the meeting. WHAT DO YOU THINK?

RAT RACES

How about some dope for this dept? Or is DX so lousy that theres nothing left thats new to work. However it might be an idea for those looking for certain stuff to list it in the DXer and when one of the gang hears it he could call on the phone and help you out in your country totals.

SV5UN-Dodecanese Isles.

Did you QSO but get NO QSL????????? Try the op himself who is now home at home QTH with the call: W3ODG....Name is Jim Hunter. Its worth a try.

Some QTH from Universalite SWL Magazine.

- EA9BB-Adolfo Perez Real, Carretera de Alfonso XIII, Chalet, Melilla Marruecos, Espanol Norte Africa.
- ZM6AK-Box 177, Apia, Western Samoa.
- OQ5EB-Amer. Presbyterian Congo Mission, Luebo, Belgian Congo.
- HE1JJ-Lock under HB9JJ-OK in Book.
- 3V8BB-Vasco Mazzanti, 23 Bis Rue de Marseille, Tunis, TUNISIA.
- VRLA-Chas. Adams, c/o Radio Station, Betio Tarawa, Gilbert Islands.
- EA8AT-PO Box #215, Tenerife, Canary Island

For Sale.

Why not try 20 phone for a change. You can do it with an almost brand new BeeBee NBFM unit for Ten Bux. See W6PB. This is a good unit and only reason to dispose of same got a present of another unit...

A R R L.

Don't forget to contact the Secty of this club when renewing your subscription to QST it is to your advantage..... Nuff Sed\$!!'
