September and October Issues 1952

Issues 9 & 10 Vol. 5

Article I Section 2 of the Constitution and By-laws of the Northern California DX Club, Inc.:

The purpose for which this club is organized are to bring together radio amateurs interested in DX; to secure closer co-operation and co-ordination in their effort to achieve DX; to elevate the standards of practice and ethics in the use of amateur radio communication; to participate in the exchange of knowledge, methods, or any other expedient that would be mutually beneficial to the members in achieving DX accomplishments.

In view of the recommendation of the executive committee, we have printed the preamble of the Constitution of our club. As the October meeting marks the sixth birthday of the Northern California DX Club, we feel this is a proper time to start this new procedure in the DX'er. It is a good time to read the preamble carefully and review it a point at a time and make it part of your daily DX operating procedure.

As stated above, the Northern California DX Club is now six years old. It was in October 1946 that W6PB, W6BUY, and W6TI got thirteen of us together at the Coit (same old place) and the club was organized. From a membership of thirteen the club has grown to it's present membership of 55. At first only 25 countries confirmed were necessary to join, but it looked like things would get out of hand and the membership would get too large to handle so it was changed to 50, then 75 and now the DXCC limit has been reached.

I wish to thank those that sent in the cards past out at the last meeting. I have had more news and information from our club members for this issue, than anytime since I took over the job. As usual W6PB came through with his FB cover and sheet of news, W6DZZ sent in a letter with lots of FB news and if he would do it for every issue we would start a column and call it "The President's Corner" because Eddie has some fine ideas and writes a FB letter.

In the next issue we will have either W6LW or W6DYP for the station picture, but after that we have nothing in the way of pictures, so you fellows that have not had your station picture in the DX'er get together with W6PYH and have him take one. Pete does a good job and knows how to get the best shots of your layout. Also be sure and give a station description to be used with the picture.

Don't forget, the October meeting has been shifted to Tuesday, October 7th to honor John Huntoon, WLLVQ, of A.R.R.L. He will have the latest dope from Hartford so do your best to be there. Also remember we all have a date in Fresno on January 17th and 18th.

Well gang; thats it for now. Thanks again for the cooperation on this issue of the DX'er.

PLEASE NOTE:

The next meeting of the Northern Calif. DX Club has been changed to TUESDAY, Oct. 7th, 7:00 p.m., to honor John .. Huntoon, WLLVQ, Assistant Secretary to A.L. Budlong of A.R.R.L., every effort by every member of our club should be made to be present at this meeting. You will be able to obtain first hand info on many problems interesting and pertaining to DX. This meeting is a regular meeting and not open to the general public.

Put down on your calendar, January 17 & 18, 1952 for our Annual DX Conference at Fresno, California, we are the hosts this year and a gala event is being planned according to W6TI and his assistants W6TT, W6ATO and W6WB.

The first DX news is from our President, W6DZZ. Eddie reports MP4BBD has been coming through almost every morning from 7 to 10 a.m. (daylight time) North path s5 to s7. Those who need Bahrein can watch 14048 and occasionally 14,082. He also said VS9AW is now on the air 14,088. Also FI8AM 14,081 in mornings.

W6SR sends in the following:

| | | | |
|--------|--------|------------|------------|
| Worked | Heard | | |
| 9S4AL | FQ8AK | 14,095 | |
| MP4BBD | 14,047 | FQ8AP | 14,076 |
| FB8BB | 14,053 | ITLAGA | 14,025 |
| MF2AG | | ZC4GT | |
| FB8BB | | VQ4FCA | abt 14,105 |
| 2B2A | | East Coast | was heard |

calling VS9AW around 14,097.

If FB8BB isn't on Madagascar Art has worked 200 countries. Art heard that CE3AG is going to one of the Eastern Islands. (When?) It seems a destroyer goes to the island once a year. He will sign CE3AG.

Joe of San Rafael, W6GPB reports that he heard or worked the following:

VP6EM VP6PV JYLBB MB9BJ LZLKAB VP8AP LB8QC HUAG KT5DT VRLAE EA8AC YI3BZL HZLAB HZ1MY ZC4RX ZC4RS EA8BF YI2AM TA3AA 5A3TA FL8MY AP2L CR9AH VS5ELA ZB2A FQ8AG VQ4DO PJ2AA MID JYLAT 3V8AN EA8AC MP4BBD VS9MU and VS9AW. Joe gave us the following notes: HZLAB is ex-W6VUO, ILADW is from S.F., CR9AH is ex-CR9AG. HZLAB mail returned "Unit - Disbanded". Joe will have his ticket 20 years on Oct. 14th. He is also still looking for a 77" enclosed relay rack. Above DX all on 20 CW.

We hear that W6IDY has solved the TVI situation, lets have the dope Dec;

We received the following from Dewey, W6VE, a little too late to put in the July/Aug. DX'er so am putting it in this issue: ZS2BC informs Dewey that as of July 1st they can use the 15 meter band from 21 to 21,200 Kc. for CW. Van ZS2MI is back in South Africa but another op by name of Barrie is using ZS2MI on Marion Island.

Joe of Vallejo, W6NIG, gives us the dope on some phone stuff:

| | | |
|----------------|-------|--------|
| New one worked | VS7SP | 14,178 |
| Heard | VS7RM | 14,185 |
| " | 5A2TH | 14,225 |
| " | FP8AG | 14,170 |

Joe is working over the beams getting ready for the CQ DX Contest. He is putting up a long wire for 75 meters to catch some of the stuff the vertical missed last year.

Roy, W6LW, our Danville corespondent was QSO HZLAB, Ed says he hopes to meet the gang in person in December as he intends to visit relatives in San - Leandro at that time. He had his beam pointed 340 degrees for W7 and when he put it 350 W6LW came up from 349 to 559. Roy sent a coupon, hopefully, to HH2LD with a letter of sympathy on their QSL troubles. W2QHH sez tell ZUI that CT2BO is still on looking for him. Roy thought he was first to work MP4BBD ON Sept. 15th but found out W6MEK beat him by a half hour. Roy also enclosed a copy of a letter that he sent to the Oakland Tribune in regards to the brush off they gave on some dope about KW6BI and the Wake Island Typhoon.

To show you guys that Yee Olde Editor has a receiver, here is some stuff that I heard and called but did not raise:

| | | | |
|-------|------------|------|---------------|
| YU4BN | 14,080 Kc. | 1400 | daylight time |
| YI2AM | 14,080 Kc. | 1020 | " " |
| TG9AC | 14,105 Kc. | 1545 | " " |
| VS9AW | 14,102 Kc. | 1000 | " " |

VS9AW was working only Europeans, also heard a couple of East Coasters talking about him and they said he was in Oman.

Don, W6ZUI reports working: VP2MD VP5BH 4W1MY ZB2A EA8BC KC6QL VP2SG FL8MY VS5ELA FQ8AP 4X4RE CR5JB FP8AK OQ5RA ZP5CL VK1EM JYLAJ 6L6MY HZ1MY FP8AJ YN1LB PJ2AD VK9XK KJ6AR VR2CK OH3NA YU3AC YU4DN YU3AT YU4TF YU4BN FA8CR VP2MD VP8AE ZP5FC VP8AP and 4X4BN. He heard: ZA3KLA AP2J YKLAH HH3L VP2MB UQ2AN CT2BO and FB8AB.

PeeBee's Clump of Information.

FP8 Activity.

There has been an awful lot of St. Pierre et Micquelon activity of late for those that might have missed out on W6SAI's jaunt to that country. Latest to show up being FP8AP, Gus on 14062 kcs. He sez to QSL to Box 192, St. Pierre.

W6DZZ

Eddie being now a big land owner is negotiating to get a house built in a location supposed to be even better than BAX. SoOoo.

2 meters.

The plans for the new net is taking great form and Chas. is writing up all the dope on a different page so we won't go into it except to remark that it should be a great help to all the boys.

Daffy Definitions.

Watt.. A request for a repeat.

Ohm...The place where you hang ur hat. Also: 'Theres no place like'.

Volt...What you should do Nov. 4th

Henry..EJA's last name.

Decibel..A Southern Dame.

Antenna...Your Ma's sister.

Meter..What you shoulda done for your wife at 5 pm and forgot.

Dielectric..What happens to you if you get across the high hop.

Phase..Where your whiskers grow.

Conductor..Guy who takes your ticket.

... DX...

Seems to be all in the a.m. these days with dead bands at night. However, as far as 14 mcs goes, 1952 has been much better than 1951 so perhaps we are on the upgrade.

KG6ABW

Many of the gang worked him in the past and he is now Stateside and living near W6IDY.

W6BUY

Looks like Jack is really getting serious about a return to the air and is building a TVI proofed rig with that in mind. The more the merrier.

W6NIG.

Getting all set for the coming contests with a little rebuilding here and there. As usual Joe will give a good accounting of himself.

W6LDD

By the time you read this Ed will be all moved into a nice new hilltop location and should be knocking off all kinds of DX when he gets back on the air.

W6IDY

Dom is now without TVI. The proud possessor of a new 75A2 (new model) and has been knocking off some new ones on both phone and CW. Come contest time and IDY should be heard from.

XMAS.

Not too far off and a few suggestions as to what to buy the little woman are in order. If you are real flush a 75A2 or HRO60 wud look nice in the living room on Xmas morning. Or how about a nice Orchid flanked by a pair of 4-250-A. That would make a nice center piece for the Xmas table.

Other thoughts would be a highly polished piece of chrome in the form of a new vibroplex or a nice microphone should be acceptable.

Just now listening to a dead 20 meter band so while typing this out started listening on 40. Right away heard W6LW pounding away. Also a CO2 and a CE coming thru with better than average signal strength so looks like 40 might be pretty good this winter its open-up this early...Sept. 27th..10pm

W6MHB John R. Beck, 1567 Terrace Road, Walnut Creek, Calif.

This month we have a picture of our 7 and 3.5 Mc. whiz, Johnny Beck at the operating position in his FB DX layout. John is a good contest man and always has a good score in the DX contests and the Sweepstakes. He was high man in the East Bay Section for the 1951 sweepstakes and hopes to repeat this year. His transmitter starts out with a home built VFO and doubler system pushing a separate final for each band. The finals run with an input from 300 to 450 watts. A single 813 is used in the 40 and 80 meter finals, a 4E27 in the 10 and 15 meter finals, and a 4-250 in the 20 meter final. On the operating table a surplus VHF receiver, the Super-Pro, VFO, a borrowed AR88, EM Frequency meter, a Q5er, and a DB20. The antennas are on top of a hill about 500 feet from the shack and consist of a small Rhombic for Europe, a four section 8JK for North-Africa and New Zealand, a Ground Plane for 20, and another Ground Plane for 80, at present there is no 40 meter antenna but one will be put up before the CQ DX contest. John has spent a lot of time working on antennas and it has paid off in good reports. He has 180 countries worked and 170 confirmed.

W6TI sends us these few notes:
W6MLY gave the boys two new ones of late, 6L6MY Qatar, and HZ1MY/VQ6.
QTH: KP4JE, Box 176, Saint Jurt, P.R.
MP4BED has been coming thru in the mornings about 8:00 a.m.
MP4KAB in Kuwait has also been heard.

Remember Gang; PO Box 75, Oakland, Calif. is maintained for your convenience. It is easier to say pse QSL via Box 75 than give your QTH over the air. (shades of Box 88)

The following dope is from Don, W6AM, we have not had as much dope from Don as usual, guess he is too busy showing his slides of his European Trip. Thanks Don for the FB talk and showing your slides at our August meeting, we all enjoyed it very much. Not enough room here so switch to next column for Don's dope.

LU3DH told W6AM THAT Argentina now has permission to operate CW on 21Mc. and hopes to get phone there soon. W6AM was LU3DH's first DX 21 Mc. QSO. W6ELA arrived home in August and told W6AM to QSL to his home QTH, that is when Don worked VS5ELA. He said that Sarawak was 2 miles and a long story away, and that it might just as well be 200 miles. The complete border of KV4AA QSL cards above the door at W6AM has been photographed and will be a part of the future showings, before radio clubs, of the W6MA/W6AM European trip.

W6MVQ was top U.S. station in the ZL - VK 1951 DX Contest and W6ATO placed 5th. W6GPB was #2 for U.S. in the 1950 version of the same contest. By the time you receive this the CW portion of the 1952 VK/ZL DX Contest will be over but the phone portion will be Oct. 11 & 12, check QST for rules.

Plans for the VHF net have been worked on by W6PYH, W6DZZ, and W6TT. They will have one or two sub-assemblies made up to show the gang how easy it will be to put this project over if everyone will co-operate. A list will be made of those who want in on the deal, at the meeting, if you will not be at the meeting but want to get in on it call W6PYH at Electric Supply and let him know. W6TT has agreed to arrange financing of the whole deal so it will not be a hardship on anyone. An estimated 20 to 30 hours work at home will be needed for each man. Blueprints, drawings, and photos will be made up, as well as a sample of each sub-assembly. In this way we hope to do the job in a business-like manner, in a minimum of time and end up with identical units for each person.

The following have already signed up: LDD, FB, ZUI, MUF, QDE, NZ, GPB, EJA, PYH, TI, TT, DUB, KEK, WB, GTI, VE, CZQ, OMC, BAX, DZZ, and MX; so any of the rest of you that want to join this list, do so at the meeting Oct. 7th. We need to know who can specialize in various operations, be it layout, drilling, lathe work, coil winding, mounting parts, wiring and lacing, tuning and trouble shooting or what? This will enable the committee to delegate responsibilities where the most will be accomplished - there will be plenty of work for all!

It was brought up at the last meeting that the Potomac Valley Club has mimeographed sheets that members pass among their close associates to indicate which countries are needed. Eddie, W6DZZ has made a list of about 100 countries that are likely to be needed by anyone whose score is now 150 or 160. It works this way: you give W6DZZ, for instance, your list, adding countries needed and not on the list. Cross out any that appear and who have QSL'd to you. If you have worked a country but no card, you indicate by marking "x" in front of that country. Then when W6DZZ is listening and hears OY3IGO, he looks to see if you need him. If so, he calls you on VHF or calls someone nearby who can phone you. There is no question about it, this will help to increase the score of many members.

On another sheet we had some VP8 QTHs as we ran short on space here a 3 more
VP8AS - W. Roberts, Port Stanley, Falklands
VP8AP - John Brown, Box 243, Port - Stanley, Falklands
VP8AM - is not active

Calendar of coming events - See QST or CQ for further details:
Oct. 4 & 5 - VK/ZL cw contest (DX)
Oct. 11 & 12 - VK/ZL phone contest (DX)
Oct. 24 to 26 - phone CQ DX Contest
Oct. 31 to Nov. 2 - CW CQ DX Contest
Nov. 15 % 16, 22 & 23, Sweepstakes

More dope from the West Gulf DX Club Bulletin:
KV4AA says: Am pushing to get Sicily "IT" separate, also it looks favorable that "RUANDA URUNDI" with OQ5CZ and OQ5DZ will be a separate one. OH2RY advises that the island of "AALAND" has a separate government and he will see what can be done about this one. F9RS of REF says: EA9DC will go to Rio De Oro in November. The FI8's are not yet authorized. FF8AI will be QRV in DAKAR in October. VP8AP says that all mail for VP8's comes through Montivideo and most envelopes are slit open, so nothing of value will ever get through.

More dope from the West Gulf Bulletin:
F9RS Says: FF8AB wkg fone on 14310 Kc is a pirate. 3A2AM confirms that 3A2 AH AJ AM AU are all in fone only; 3A2 AH AM MIH in cw are "Pirates. New ones in Monaco are 3A2AU and 3A2AV. The "Reseau des Amateurs de Monaco" will soon be set up. 3 new ones in French Equatorial Africa are FQ8AR on 14 Mc. CW, FQ8AS (the son of FQ8AG) and FQ8AT with 2 807s on cw. FQ8HC has 100 watts on 10/20 meter phone.

As long as we are in a borrowing mood we will swipe the following from the Southern California Club's bulletin:
ZD2HAH 14069 T9 2200 GMT, QSL to Posts and Telegraphs port Harcourt Nigeria. CR5JB 14016 T7, QSL Box 37, Bolama, Portuguese Guinea. YI3BZL 14175 phone 1700 GMT. ZA3B reported on 3.5 mc, but 9SLAX says ZA's pirates including ZAJAB.

Due to having the dope on the VHF net and also on the country needed list, this page will not be included in the courtesy copies of the DX'er. It is not that we want to make it a secret or anything like that, it is just that this is something for club members only and the more we can do to keep it as such the better.

To help you remember when your dues are due, the following list of calls are given by the month they are due each year. Remember dues are payable in advance:

January - W6IKQ, W6UPV, W6BUY, W6TT, W6DUB, W6TI, W6EJA, W6AED, W6PB, W6ITH, W6GIZ, W6RBQ, W6CIS, W6WP
 February- W6MVQ, W6LMZ, W6ZUI, W6CEM
 April - W6UZX, W6OMC, W6SC
 May - W6QDE, W7HXG, W6JK, W6RRG, W6VE, W6CZQ, W6BAX, W6GTI
 June - W6MEK, W6ATO, W6GPB
 July - W6WJX, W6LDD, W6MHB, W6KEV
 August - W6DYP, W6LW
 September - W6WB, W6NZ, W6NIG
 October - W6IDY, W6SR, W6MX, W6DZZ, W6MUF
 November- W6AM, W6CTL, W6KEK, W6ZCY, W6UYX, W6PYH
 December- W6RCC

From VERONA, the Netherlands West Indie we borrow the following:

The following is a list of all fully licensed radio amateurs in the Netherlands Antilles as of August 1, 1952.

Aruba Island.
 PJ2AA - S.J.Heeringa, Dakota Airport
 PJ2AB - R.C.Abandanon, B-926 Lago Heights, San Nicolas.
 PJ2AC - A. Kooiker, Dakota Airport.
 PJ2AD - J.M.Kelkboom, P.O. Box 9, Oranjestad
 PJ2AE - S.C.Chapman, Lago Colony, B-540
 PJ2AF - L.D.McBurney, Lago Colony, P.O. Box 214
 PJ2AG - H.Oduber, P.O. Box 135, Oranjestad
 PJ2AH - J.M.v Eyk, c/o Radio Station, Oranjestad
 PJ2AI - J.Ooms, c/o Police Station, San Nicolas

Curacao Island
 PJ2CA - S. Reitsma, Dam 2, Juliana Dorp.
 PJ2CB - J.L.Sterke, F.D.Rooseveldweg 246
 PJ2CC - L. Klein, Piscadersweg 22.
 PJ2CD - C.F.Lingstuyt, v.d.Brandhofstreet 10.

Items borrowed from the "West Gulf DX Bulletin":

ZS6BW says: RSGB has announced they will count QUATAR as a separate country and has requested that ARRL do likewise.
 ZS6BW says: YA3VB AL/A3 14150 Kc, every 3rd day---he is one of HZ1MY proteges.
 TI2TG says: VR4AE supposed to be active on about 14012 Kc.
 FP8AP has only one xtal 7032 Kc so is heard on 14,064 Kc.
 W7ELA says he has received 300 QSLs for VS5 contacts.

QSL Info from the West Gulf DX Bulletin:
