MINUTES OCTOBER MEETING NCDXC

The October meeting of the NCDXC was held October 8, 1971 at the Black Angus Restaurant in San Mateo. The meeting was called to order by Wes, WB6UJO.

This was the 25th Anniversary of the Northern California DX Club and the following "old time" and charter members" of the club gave short speeches on some of the highlights of the Club's history.

This was followed by the Treasurer's report by John, K6AUC, who stated that we still have 79 unpaid members and that our current cash on hand was \$1043.57.

Second readings were made for Perry Foster, WB6JRL, Russ Spalding, WA6AVS, and Donald Bussear, K6UJS; all were unanimously voted into membership.

This was followed by first readings for the following:
Bernard Cline, WA6LFN
Maury Harp, W6KJG
Gene Strohallen, WA6EWO
Rolf Carlson, WA6IDF

Fred, WA6BVY, followed with a report and pep talk for the Contest Committee.

It was further clarified that in order to be eligible for the Club's Million Point Award, one must make a total of 1 (one) million points in the phone or CQ (or combination of both) portions of the CQ and ARRL DX Contests.

W6KG made a motion which was passed by the membership, for the contest chairman to verify with ARRL and CQ the scores of the NCDXC.

Bob Thompson, K6SSJ, made a motion which was seconded and passed by the membership to appoint a committee to discuss the merits of a Club sponsored DX-Pedition. Wes, WB6UJO, then appointed Bob, K6SSJ as chairman of this committee.

The Roundtable was followed by adjournment at 11:35 p.m.

CALL

How about Honesty and Integrity?

Well here it is contest time again, October--1971. and of the big guns are stocking up on spare 4-1000's & 4-1500's and polishing up these new speech processors (not really, but I will use this in place of some less complimentary adjectives). The big antennas are in place and all tested out. Everybody is ready!

The "little guns" will get in there between meals and mowing the front lawn just as usual because they don't get much compensation for their efforts anyway. (The "big guns" see to that) Oh yeah! Someone who just got ram-rodged with the Contest Chairman's job gets up and hollars and yells about Club spirit and all that rot but the average man gets absolutely nothing out of it. No award from CQ and no award from the NCDXC. (You must remember Ray's campaign some months ago to get the "little guns" some credit?) Nope, the big boys wouldn't even go for a good hard slap on the back. Sure it would look funny with just a half-dozen calls at the top of the list without anyone under them to make them look ahead of the pack. What is ahead of the pack without a pack?

So now we really get down to the nitty-gritty, that seldom mentioned work---HONESTY. I read through the recent results of the ARRL Contest and I see calls listed without a /6 that we all know operated from someone else's station. Others listed in one section that actually operated in another. Then there is the guy that was multi-op and we see that he has very quietly slipped in to the "single-op" category to take a nice award away from some hard working slob that half killed himself to make his million. Isn't it funny when you compare the scores from QST to the ones that were published "final scores" in the "DX'er"?

Everyone sees these things as do I, but few are motivated enough to air their feelings, suspicions or beliefs. They just go on tolerating this dishonesty---No, lets call a spade a spade..... They go on tolerating this CHEATING. Then there is that other bunch that don't have the guts to change their score so they stay "clean" and continue to pump 2 KW output into the antenna from that new "Alpha Seventy". Needless to say, most of the troops that fall into this category are likely suspects for the later! Some time ago a petition was passed around a meeting urging stronger enforcement of the maximum power limitation. Yep, you guessed it. All the little guns signed it and most of the "big guns" did not. Nevertheless about half the membership present at that meeting signed the petition. Then it happened! Some individual, his name some of us know did his usual thing! Too cowardly to let himself be sectionalized, pocketed the petition and disappeared from the meeting. You can bet he will be running his "gas" and pencilling in his "fake" multipliers this contest. Some of the members present laughed the president off and others, disgusted that someone among them would stoop so low, haven't been coming to meetings. Look around next time, who is missing. Check the DX'er and see what scores are missing & listed in CQ

The Northern California DX Club has lost a group of scores to the so called "Contest Club" (a group we can discuss another time) and now they are losing another group, the guys that are disgusted with dishonesty. What's left NCDXC? Are you going to stick your head in the sand and ignore it? For God's sake when you know cheating is going on have the gumption to call the man down about it. He may not ever speak to you again (nothing Lost) but at least you were a man!

To those of you with big SUDS and sharp pencils, be cool! There are a number of people in the area (yes, some in our club) that are watching you very closely. Many are constantly collecting documentation through various channels and ready to send it to people of positions of importance. Yes sir, there is finally a campaign against dishonesty! To disqualify you from contests in the future and present, repudiate you in front of your friends, and hopefully remove you from ham radio (much less the NCDXC) for good.

Wellas, a lot of you probably feel these are "rash" words and unwarranted actions. But this cheating has to stop! Yes, the NCDXC may have to aire some dirty laundry before it is all over but believe me it will be better in the end! Then we all can settle down to honest, friendly competition.

We all get a nice warm feeling of joy when we see the NCDXC listed ahead of our rival to the South as I did when I read the recent issue of QST I just hope we could do it without the dishonesty.

Thank you, NCDXC for the opprotunity to say my peace.

Steve Eichman-WA6IVN
