**General Meeting  
January 9, 2003**

**Harry's Hof Brau  
1909 El Camino Real,  
Redwood City**

### Program

**Al Maenchen, AD6E**

Presents the

**TI9M DX-Pedition**

To

**Cocos Island**

(See Details on Page 4)

**Social Hour .. 6:00 P.M.  
Dinner ..... 7:00 P.M.  
Meeting..... 8:00 P.M.**

**DXer Deadline  
for  
February 2003 Issue  
is  
January 29, 2003**

N O R T H E R N  
C A L I F O R N I A  
D X C L U B

**Club Officers:**

President: Doug Westover, W6JD  
 Vice Pres: Chuck Patterson, K6RK  
 Secretary:  
 Treasurer: Dewey Churchill, KG6AM  
 Director: Rolph Stoddard, W6TWO  
 Director: Keith Butts, KN6K  
 Director: George Allan, W6YD

**The DXer:**

Editor: George Allan, W6YD  
 719 Ruddy Court  
 Los Banos, CA 93635  
 w6yd@aol.com

Printing, Mailing: Dick Letrich, W6KM

Web Page: Chuck Vaughn, AA6G  
<http://www.ncdxc.org>

DX Ladder: John Kelly, KG6XF

9-Band Award: John Brand, K6WC

Contests: Dick Courtway, N7RC

California Award: Robert Bickel, K6FX

Historian/archivist:

Records Manager: Ron Panton, W6VG

Publications Mgr: Ron Panton, W6VG

**Club Repeater, W6TI/R**

Frequency/offset: 147.36 MHz, +

Trustee: Bob Vallio, W6RGG

Control Operator: Robert Smithwick, W6CS

Club simplex: 147.54 MHz (suggested)

Thurs. Net OTR: 8 pm local time.

Net Manager: Randy Wright, W6CUA

DX News: Net Control Operator

Swap Shop: Mitch Cipriano, AE6AI

QSL Information: Mac McHenry, W6BSY

**W6TI DX Bulletins:**

W6TI Station Trustee Bob Vallio, W6RGG, transmits DX information at 0200 UT every Monday (Sunday evening local time) on both 7.016 and 14.002 MHz.

**Club address:** Box 608  
 Menlo Park, CA  
 94026-0608

*The DXer* is published monthly by the Northern California DX Club and sent to all club members. Unless otherwise noted, NCDXC permits re-use of any article in this publication—provided The DXer and the article's author are credited.

## President's Comments

By the time you read this, the holidays will have passed and I hope you all had an enjoyable holiday season.

The club Christmas party was a great success, despite several hours with no power at the height of the storm! Flashlights, candles and good ole ham ingenuity kept things going. The food was excellent, as was the entertainment. Watching the magician perform by flashlight was amusing.

Rolph, W6TWO, is to be congratulated for putting together an outstanding event.

The next meeting will be January 9 at Harry's with a program TBD by Chuck. We have three new first readings for the meeting, a good sign for the club. Come greet our aspiring new members!

73,

Doug, W6JD

### NCDXC Dues Information

**Full and Associate Members;**

Date Dues are Paid	Member	Family Rate
1 July thru 30 September	\$24.00	Plus \$15.00
1 October and after	\$24.00	Plus \$15.00

\*Members who have not remitted dues by the 30 September deadline are considered dropped from the membership roles. Those desiring to renew membership may do so anytime, but will not be included in the new issue of the NCDXC Roster .

**Absentee Member Dues are \$16.00 per year.**

## Annual Christmas Party

The Annual Christmas Party of the Northern California DX Club came off as a resounding success. Not even a power failure could dampen the spirits of this gala event that was so effectively organized by Rolph Stoddard, W6TWO.

We were serenaded with Christmas music to accompany our cocktail hour and socializing. Then we feasted on a resplendent buffet which included turkey, ham and all of the trimmings. Because of the power failure, we had the unexpected pleasure of dining by candlelight. It was wonderful and so delicious that many, including myself, went back to the buffet table for seconds.

After dinner, we were entertained, astonished and baffled by the Magic of John Vlcek, a prestidigitator of preponderant proportions. Believe me, he WAS amazing! And, as if all of this wasn't enough, we had a working ham radio station, provided as a demo by Ham Radio Outlet. So, thanks to HRO, W6TI participated in the 10 Meter contest for the duration of the party.

Bob Vallio presided over the remainder of the program, which included recognition of dignitaries and special guests. Dick Letrich, W6KM presented a special award of merit to Ron Panton, W6VG for his many years of dedicated service to the Northern California DX Club. We, on the DXer Staff would like to echo Dick's remarks concerning Ron's service to the club and add our thanks to Ron for his many years of going beyond the call of duty.

The final event of the afternoon was awarding of many door prizes, which were again furnished with the help and support of HRO. On behalf of the Northern California DX Club, we would like to express our gratitude to HRO for their support for this year and many, many others.

We would be remiss if we didn't thank Rolph Stoddard, W6TWO for organizing, what turned out to be, a first class celebration for our Club. But, if you know Rolph as I do, you will realize that this is the way Rolph does everything -- first class.

Finally, I want to acknowledge and thank the several members who sent us photographs to chronicle this fine event. Photos sent to us by W6KM, Dick Letrich, N6VAW, Marilyn Bagshaw and W6ZX, Alex Meyer enabled us to give you a pictorial report on the party in the pages of this publication. I'm certain that Worldradio Magazine, who was also on hand, will more completely and accurately report on the party. However, these pictorial contributions will be more timely and give you a glimpse into what everyone enjoyed so much on this festive day of the Holiday Season.

73, George, W6YD

## Marathon by N7RC

First, my wife and I wish to thank all who made the Christmas Party such an enjoyable event. We are now looking forward to coming down for the Picnic!!

The Marathon is at the halfway point. Hope the December 10 meter contest was good to you and you were also able to give contacts to a few of the clubs' members who were in the test. For the remainder of the event, we're hoping that the bands will be sweet to us.

73, N7RC

## I Remember Don By Hugh Cassidy, WA6AUD

*The following article appeared in the DXer along about May or June of 1994, as best I can figure it. According to the article, the actual DX Club meeting took place in June of 1967. I found the article on Paul Dunphy's website, the URL for which is <http://www.geocities.com/CapeCanaveral/1641/dxstories.html>. It's included here for the interest and edification of those less informed DXers, like myself, who were inactive during Don Miller's heyday. -Ed.*

Twenty seven years ago this June 9th the NCDXC held its monthly meeting at the Fork and Cork in San Mateo. Don Miller was the speaker for the evening. It was possibly up to that time the largest attendance at a Northern California DX Club meeting ever. Ninety four true blue DX types came from far and near to meet Don and hear of his adventures.

It was a time of change though this is probably realized more in retrospect than it was at the time. DXing was going through a major change, things never would be the same again. It was Don Miller who brought about the changes, he and no one else. He was a superb operator who brought loads of needed DXing and new countries to the Deserving. Just ask any Old Timer about Don, but don't stand close. Some are still mad. And they intend to stay that way so just don't argue with them. They were there and they are the ones who bear the scars from those years. It was terrible. Even today some of the elders have difficulty in talking about it.

We first worked Don Miller as HL9KH in Korea, where he was a captain in the U.S. Army medical corp. Don Miller was a physician. He was in every contest and ran up big scores. He would operate a key with his left hand and simultaneously log with his right hand. He was among the best if not the absolutely best operator. Never let anyone tell you anything less about Don Miller. Back in those days, actually not too long after WWII, DXing was not the 800 pound giant that it is today. It was, as some would often then note, an aberration. The heart and soul of amateur radio was elsewhere. If you really understood, you could find the real meaning of amateur radio in the traffic nets, in the emergency preparedness organizations and all those other good endeavors. DXers were weird. The ARRL DXCC Desk was a minor chord in a minor opus. It was a peripheral operation and seldom recognized or even understood by the real amateurs.

In those days the ultimate praise for an amateur was: "...he's a good traffic man". When the biennial elections for ARRL directors were held the general consensus was that the one who was "...a good traffic man" came with the highest qualifications. In the ARRL itself all the activity was under the control of "The Communications Department". To study the organization setup of the ARRL in those days is to quickly recognize that the ARRL was: 1. The Communications Department and: 2. QST and anything else. DXing was handled by the Communications Department, whose main interest was traffic handling. And don't try to argue on this, this is the way it was. Absolutely. Just don't try to argue with history. You will always lose.

In those days the DXCC desk was primarily interested in the authenticity of

(Continued on Page 5)

## Meeting Program

The January 9th meeting of NCDXC will be held at Harry's Hof Brau in Redwood City. Dinner will be at 7:00, meeting at 8:00 PM.

The program will be a presentation by **Al Maenchen, AD6E** on the recent (Feb 17 to Mar 1, 2002) **TI9M DXpedition to Cocos Island**. Al was one of the fifteen DXers who participated in this very successful operation, which logged over 77,000 QSO's.

This is the program that was originally scheduled for November. So, mark your calendars to come see this exciting presentation.

Chuck, K6RK

## Map and Directions to Meeting

Harry's Hof Brau is fairly easy to find. It's on El Camino Real, just north of Woodside Road (Highway 84).

**From Highway 101**, take the Woodside Road (Highway 84) West exit to the El Camino North exit. Follow that exit (a short distance) toward El Camino to the stop sign at Main Street. You will practically be in Harry's parking lot! It will be right across the street on your left.

**From Highway 280**, take the Woodside Road East exit and follow it to the El Camino North exit. Harry's will be on your right just past the underpass.

There are parking lots on both sides of the building. So, if one lot is full, just try the other one.

## I Remember Don (Continued from Page 4)

QSL cards. Then it was not smart to try to slip any bogus counters past the DXCC Desk. They had their “black light” and any card at all that was suspicious brought a hot warning that any future transgressions would be dealt with by banishment to the outer darkness — and with no avenues of appeal available. Slip—and you were gone — permanently. There was no argument or opportunity for any explanation.

All amateurs were considered absolutely honest. They had to be or they would not be holders of the amateur license. Normally if you said you were in a country, that was sufficient. Even in countries where amateur radio was prohibited, good DXCC counters could be had from working surreptitious operations. The DXCC criteria clearly said that cards would be honored from countries where “amateur licenses were not issued in the normal manner”. When Benito M. was the Italian tyrant, amateur radio was prohibited. But underground stations were operating from the sacred Italian soil and they were accepted for DXCC. After all, DXers were amateurs and amateurs were honest. If they said they were there, of course they were. They were honest. Perhaps traffic operators were the most honest of all. In short, DXing was different. Don Miller changed things. It was never the same after Don.

Don got out of the service and took off to make life a bit happier for DXers. He started showing from new countries. Don did his research and compiled a list of places which should qualify for country counters, a good many never have been previously considered as even wild possibilities. Don knew the rules and he exploited them. He even worked from Okino Tori-Shima long before the JA-jubilee year. His operation there was not accepted.

Don showed from places that had been on the nautical charts for years but which sailors had difficulty in finding a second time. Don showed from places where amateur radio was forbidden. Don showed from places that were practically inaccessible in those days. And Don worked twenty or thirty thousand contacts at every stop. Don was DX personified and no one would dare argue with that premise.

There naturally were some malcontents. One has to expect these even in the best of times. Some said that Don was charging for his contacts, that if you were high on the

DXCC Honor Roll listing, you were expected to pay accordingly.

If you did not help with the great work, Don would have difficulty in hearing your signal. Some DXers were outraged at this. Here they had this big cloud of aluminum in the sky and all the power the mains could handle and sometimes a bit more and Miller could not hear their signal. But if they used the call of the non-DXing XYL or other members of the family, Don could catch it on the first call. Recognize the fact that working Don using an in-family call did not help with the DXCC counters, it only helped drive up the blood pressure. It was a time when more than one big-gun DXer was driven to the wall. It just was not fair.

Don showed from places like Burma, China, Thailand, Heard Island, Spratly, the Laccadives, Navassa, Serrano Bank, St Peter and Paul Rocks and Chagos and Blenheim Reef. Most of these were either prohibited countries or possibly new ones that Don had discovered. He showed from just about every needed country known and a good many places which had not previously been considered as DXCC possibilities. He proved they were. Don even showed from Minerva Reef, Maria Theresa and Baja Nuevo. He was everywhere. And the fact that was hard to dispute was that he often mailed his QSL cards for operations right from the country where he had been operating. Who could dispute such clear evidence of his authenticity?

Some in the ARRL started to ask questions, possibly this coming with prompting from some knowledgeable DXers. The easy going, laissez faire days of DXing were nearing an end.

For years you could still trace a record of Miller’s activities in the ARRL Country List. These could be recognized in the Deleted Countries List by the notation: “Deleted because of lack of supporting documentation”. That happened so long ago that the current DXCC Countries list no longer has such notations. The glow of those happy days and the misery that followed are long gone.

In June 1967 Don was on a grand tour of the states. He worked his way across the country telling of his adventures in foreign lands and the excitement encountered in bringing new countries to the needy Deserving. It was a good show. The NCDXC crowd that heard it that June evening enthusiastically cheered Don at every possible occasion. The opportunities were many.

It was a jammed meeting, far more than the usual dining room could accommodate. The late arrivals had to dine in remote splendor out in the main dining room. From there they could hear the background noise from the good times in the regular meeting room, the voices raised in loud and good cheer. But Don Miller did not forget the DXers in the outer darkness, he came out to greet and shake the hand of every single one of them. Don was the great friend of every DXer. Believe that. A real handshaking DXer!

Then the regular meeting room was jammed as everyone crowded in to hear Don speak. He told of his recent adventures, some of his older and more memorable ones and made only a passing reference to the troubles developing with the ARRL. There in downtown Newington they just did not get it. Possibly they never would.

Don told of some of his recent operation from the Indian Ocean and especially from the needed Laccadives. This was a needed one for DXers because India would not allow amateur operations there. Don had a fine slide show, he show the

approach by boat to the Laccadives, coconut palms sticking up out of the sea. Then there was a crowd of natives waiting on the coral strand, Don assuring the meeting that this was the headman and chief in this part of the Laccadives and he was waiting to welcome Don to his domain.

There were pictures of Heard Island. One showed the glacier covered mountain, Big Ben, that towered behind the old cable station and the old and decaying buildings of the station itself. Don noted one of the more habitable buildings that was the base for his activity. He was careful to note the feed-through connections that brought the old Australian cable service into the building. Heard Island was one the ARRL was moving to disallow.

Don also talked of some of the other stops along the Indian Ocean in East Africa. He told of arriving at one back-water shipping port in a small country to learn that the elder son and heir of the ruler was seriously ill with an arm infection at the inland capital. Don told of immediately gathering his doctor’s satchel and traveling through the jungle and across hardly charted mountains all night long, he arrived at the bedside of the sick youngster at dawn. He immediately

(Continued on Page 6)

## I Remember Don (Continued)

applied his wide medical knowledge and pulled the youngster through what had promised to be a fatal illness. It was a touching story.

Amateur radio had not been permitted in this backward country. But now, as Don told it, the ruler was so grateful for the saving of the favorite son that he was going to allow Don to operate there any time he wished and that there would be steps taken to lift the ban on amateur radio operations in that country. Unfortunately, because of the delicate nature of the matter, it was neither feasible nor possible to tell the name of the country at the NCDXC meeting. But as soon as the word was received, Don would be on the way to the new one and the NCDXC would certainly be the first among equals to know. Absolutely.

It was a joyful meeting. Don was cheered and the ARRL condemned. Taking firm action in the Don Miller matter the club had previously adopted unanimously, six ayes and no nays, at a regular meeting a formal resolution advising the ARRL that their actions in suspending credit for some of Miller's operations was premature. That resolution has never been rescinded.

At the end of the meeting a basket was passed around for voluntary contributions to the great cause. The basket was enthusiastically filled with currency. Many were ready to put their money where their trust was — in Don Miller.

Don went east from this June meeting. He had filed a law suit against the ARRL asking for damages for their actions. Actually one of the NCDXC club members, a prominent bay area lawyer, was hired by the ARRL in the team to handle their side of the case.

With all the uproar about some of Miller's operations being disallowed, Don announced a Caribbean tour he was setting forth on. This included a stop at Navassa and some other promised needed ones. The hint was that St Peter and Paul

Rocks might be visited. Navassa was controlled by the U.S. Coast Guard. You needed their permission to land on the island. Don Miller did not get this okay but went to Navassa anyhow. The ARRL said the operation would not be accepted. Then Don moved onto Serrano Bank and Baja Nuevo. He operated from these needed ones. Then he disappeared for some weeks. No word at all.

Suddenly, there he was — operating from St Peter and Paul Rocks in the Atlantic east of Brazil. This turned out to be the Achilles Heel of the Miller Story.

Things in the lawsuit got to the deposition stage. That was where the whole thing blew up. It blew up so hard and loud that some of the DXers, the more trusting and faithful ones, never recovered fully their hearing nor their faith in the goodness of mankind. If Don Miller was flawed, the whole world was flawed. Even one major amateur magazine was so shaken that the word was given to never mention that name again in the columns of that publication. The Don Miller photo had been turned to their editorial wall. It probably is still there.

In the deposition stage and under oath, Miller's partner on the trip admitted that they had never been on St Peter and Paul Rocks but actually operated on a boat off the coast of Venezuela and some 1800 miles west of the supposed operation. The legal case blew up.

Don Miller had also been giving depositions when his partner spilled the beans. With this development the taking of the sworn statements was put on hold, some signs that a willingness to settle the whole thing started to show. After some

discussion between the lawyers involved, an agreement was signed and the matter more or less was ended. In some aspects the matter has never ended. The DXing you practice today is largely directed and controlled by ARRL actions taken after the ending of the lawsuit. The good old days of believing in the goodness of man and especially the nobleness and honesty of DXers came to an end. The ARRL issued changes, which initially were so strict that foreign amateur associations protested them most loudly. Eventually things eased up a bit but the basic rule that came forth is that you must be ready to prove some things in an operation, things such as licenses, permission to operate and proof that you were there.

Years ago I got the definitive word right out of the mouth of Bob White, W1CW, who was then running the ARRL DXCC Desk. An effort was ready to go out and put the Spratlys on the air but there was some nagging question on the call sign. They wanted to sign 1S1A. A phone call came from Hong Kong asking if that point could be clarified and would the call 1S1A be accepted? In turn a phone call was made to Bob White in downtown Newington who phrased his reply so succinctly that there could be no doubt as to his meanings or

wishes. "I don't give a damn what call they sign", Bob roared into the telephone, "just as long as they can prove that they were there!" Who could argue with such clarity?

Inevitably steps were taken to straighten out what obviously had been a misuse of trust. The DX Advisory Committee was the first of several such advisory committees authorized to help the ARRL Board of Directors better understand some of the more exotic practices within amateur radio. Other Advisory Committees followed. The Don Miller matter had found the Board in many instances just unable to comprehend what was going on. Something was, but it was not easily understood by a non-DXer. Only a few of the board in those days had any understanding of DXing, most were lost when the nuances of the great undertakings were explored. Completely lost. The Advisory Committees were the road to understanding if not to better decision making.

Don Miller persisted for awhile but the bloom was off. There were a number of his operations later disallowed — these because of the lack of supporting evidence. In some respects these were ex post facto demands, the original presentations had been accepted for DXCC credits. Don could not or would not prove the operations had taken place, the ARRL could not prove they were not. Supporting documentation was not forthcoming, the questioned countries were dropped from accreditation.

Some will even yet ask why the Miller caper happened. It happened because of the internal handling within the ARRL of what was then considered a minor activity. In retrospect, many of the more ancient DXers will speak guardedly among themselves of other DX operations which, when carefully reviewed in later years, raised some very strong questions. That time is now long gone but back at the height of the Miller problem there was some talk that the ARRL was concerned that any legal hearings might bring some of the then long gone operations back out into daylight for scrutiny. It appears that the point would be raised that if such operations in the past had been accepted, why were Miller's questioned when these others had not been? In short, it actually was a situation that had developed over the long years.

Don Miller brought it to perfection. He had the skills and the willingness to travel. He did his homework. Unfortunately he

(Concluded on Page 7)

## I Remember Don (Concluded)

started cutting corners. One who accompanied Don on some of his later trips even said that he got lazy. Even when

a legitimate operation could have been mounted with no great effort, it was felt that the happy DXers back home would never know the difference in that the operation was not from where it was claimed, so why go to all the trouble. Often he did not.

Don Miller should be remembered for the big changes that were wrought within DXing by his activity. He made it what it had never been before and possibly has not been since. It was perhaps an early full time effort. A "World Propagation Study" it was called. It did happen once, it is doubtful if something like this could ever happen again.

Some will still always be ready to denounce Don Miller. Yet, some of the castigators probably have QSL's from him, which gave them new DXCC counters and new countries. Others denounced Miller because they felt then, and still do,

that their trust in him was betrayed. Even today over a quarter century some cannot find a good word to say about him. Yet others will still remember him as superb operator who could figure out places that would count for new countries.

There are plusses and minuses all up and down the line.

But that night at the NCDXC meeting at the Fork and Cork there was little dissent or little disbelief shown. Perhaps the only word whispered aside was: "With all those photos of the Laccadives and Heard Island, how come none of them show Don Miller in the picture?" A good question.

Some time when the times are slow and someone talks about the Miller years, ask what operations actually were nailed by the ARRL as frauds. It may be surprising even yet to some but it does seem that the St Peter and Paul Rocks was the only one. The other Miller efforts that were deleted were on the basis that the requested supporting documentation had not been supplied.

In later years a lot of things went wrong for Don Miller. But, that in itself, is another story. For some years he was the brightest star in the DXing firmament. He blazed out along the way. After twenty five years it may be well to remember what happened, how one can trust and lose and how one of DXing's top operators fell from the pinnacle.

And above all else, remember that DX as you know it today has a lot of it's earmarks and parameters directly traceable to Don Miller and what he did.....and what he claimed he did, but did not.
