GUS BROWNING/SENEGAL Gus opened up from Dakar February 21st around 2100Z and has been working both SSB and c.w. up and down the bands working well into the states. Gus announced that he will make two more stops in Africa before joining up with Steve Gibbs, VQ8CC, in the Indian Ocean.

K6KA/FO8AA Bill operated the club station in Papeete from February 17-21st. A change on the QSLing---Bill must handle the QSLs for his operation there and his home address is Box 1, La Canada, Ca. 91011. Bill reported that 7mc was open to both coasts with good signal strength but 14mc was difficult with heavy QRM. His next stop will be VK-land and he will be this week in Sydney.

EAST PAKISTAN AP2AR reported around 14046kc from 1200Z. Name is Arif. Also on c.w. is AP5CP at 14052 from 1200Z.

FAR EAST NAVY STATIONS The U.S. Navy has closed down amateur operations in the Far East, exclusive of hospital ships, claiming violations of security restrictions.

MARION ISLAND Still continuing to show up two or three times a week...Monday, Wednesday and Friday is ZS2MI. watch for him from 0200Z and he usually is on until sometime after 0300Z working a list taken by WA3ATP around 14315. ZS2MI is usually found transmitting around 14150kc. QSL via ZS60B

LUXEMBOURG DJ6SI plans to operate ther March 14-16 signing DJ6SI/LX. Twenty is the indicated frequency...14070-14075kc.

MONACO Another operation is planned for this spot by DK1KH from March 24-31st, signing 3A0EJ.

SOUTH SHETLANDS British party forced to evacuate in a hurry from Deception Island with the island having a bad case of the shakes and the volcano erupting. Helicopters had to be used to get some of the party off. VP8KH was reported as operating from Deception in January.

LIBYA 5A3TX on daily from 1600-1700Z at 28519kc. Like to rag-chew so be patient. After 1700 frequently moves to 21370kc for more rag-chewing. QSL via WA3HUP, 105 June Drive, Camp Hill, Penna 17011.

MACAO CR9AK can frequently be found in a schedule with ZS1CD around 21350kc from 1400Z...sometimes they keep the sked at 1600Z. Because of conditions in that area, the CR9s may disappear at any time.

SAN MARINO M1B was coming through with a good signal from 1500Z on February 20th at 14005kc.

CYPRUS ZC4GM, Gordon, LP from 1500Z, listening around 14201kc and transmitting at 14199kc. QSL via W2CTN. Also ZC4AK, Maurice at 14203kc at 2100Z. Both on during the last week. ZC4HS at 21367kc, 1240Z....calling CQ

TIMOR CR8AI, Luis, 14280kc from 0800Z. QSL to Dili, Portuguese Timor. Adding 'via Darwin, Australia' is said to expedite delivery to Luis.

TEN METERS Has been staying open until about two hours after sunset to the Orient and opening to Africa around sunrise here on the west coast. A quick check across the band might give you some surprises at times.

MAURETANIA A 5T5 effort may be the next stop for Gus...this being one of the two projected African efforts yet to come.

HEARD ISLAND Latest departure date for the USCG SOUTHWIND from Perth is now set for March 4th. Expected arrival at the island would be about March 11th. Otherwise the previous information still stands.

HAITI HH9DL, Don, Reported at 21070kc, 1800Z on February 18th.

MONTSERRAT VP2MK, Golden, coming through at 21305kc at 1700Z. Also reported at 3507kc at 2300Z. QSL to W8EWS.

SHORTLY NOTED The last issue with its six pages almost finished the staff...many mistakes in spelling including the one in the issue number. WLAW received a notice of violation from the FCC on the new incentive licensing sub-bands ...the notice later withdrawn when the FCC found its records out of date. In Canada phone patches still illegal. The second part of the ARRL DX Phone Contest is this week-end...be prepared. Check the February CQ to find out what makes the WCLXB...every one is certainly one of our senior citizens. No further word on 807BB...beware of strange calls with a British accent.... All countries do not honor IRCs...we will run a list shortly...but even those amateurs in those countries do take IRCs for trading purposes. Even in some countries where IRCs should be good there sometimes is difficulty with the local Post Office when they are not familiar with them. If you have a friend whom you think might be interested in the WCLXB, drop a note and some samples will be sent to him.

MALPELO HK3RQ and Company were off the island on February 21st but with the seas too rough to land. Tentatively they hoped to land Saturday morning but nothing was heard up until early afternoon. Should they be delayed and the information may be of use, the following is the latest frequency list for the effort.  
 c.w. 3501, 7001, 14005, 21005 and 28005kc.  
 SSB 3790, 7090, 14190, 21290 and 28590kc  
 They will announce their listening frequencies. Malpelo is a most difficult place to get ashore and after you manage this you are in a place as steep as the side of a roof.

CRETE SVØWCC reported at 14273kc from 0600Z....QSL to WAØHPU. SVØWN at 21260kc from 1400Z, QSL to K3EUR.

THE RUSSIANS Evening from 0300Z to 0430Z seems to be the time to look for some of the rarer ones....such as UF6/UG6/UH8/UI8/UJ8/ UL7 etc. Some heard are:

GLIBALTAR ZB2BC, Jack, coming through at 21314kc from 2050Z.

GUERNSEY GC3UJE, 28594kc from 1700Z. Said he would be on daily, same time and frequency. Name is Brian and QSL via bureau. Also reported at 28536kc. GC8HT will be at 28643kc from 0730Z on February 24th....if nothing there look for him at 21343kc.
