

WEST COAST

DX

Bulletin

+++++ June 13, 1972 +++++ 24-72

St. PETER AND PAUL PTØAH and PTØMI due to open this Saturday for four days of action from this middle-Atlantic spot. The frequencies to watch are:

C.W. 14040kc 21040kc 28040kc PTØMI should be the operator here.
SSB. 14185/14195kc 21285/21295kc 28585/28595kc. PTØMH here.

This is planned to be an around the clock operation with the main emphasis probably being on 15 and 20 meters. One of the operators has asked that no questions be asked over the air as there may be some difficulty in carrying on an extended conversation in English. It will be adequate for the contest-type QSOs but beyond that there may be problems.

The operation should run four days from June 17th...this coming Saturday. QSLs go as follows:

PTØMI QSLs... to Bx 19073, Sao Paulo, Brazil.
PTØMH QSLs... to Bx 19094, Sao Paulo, Brazil

MELLISH REEF This one is starting to look good with VK3JW now aiming for the first part of July. The main problem right now seems to be transportation. There is some dickering over this matter, the boat owner willing to take them there but wants to run down towards the Chesterfield Group while the amateur group operates and checks the local action.

VK3JW reported as not too enthusiastic over this plan. Mellish is about 30' wide and 100' long. The feeling is that they would rather have the boat near-by just in case. However, all of this is being worked out and plans are being aimed at something early in July. Preliminary reports are that this will be accepted by the ARRL DXCC Desk for a new country.

With transportation being handled, the financing is something else again. There is still a need for some support and W6ISI and WB6IXC are forwarding any support that is directed through them. This trip should run a week to ten days of operating and should be chaotic at the openers and probably calling "CQ DX" before the end of the trip. But what the heck. New countries do not come often enough.

FORMOSA Nothing new on this one... BV2A has been the only thing available here for a few years now, the MARS Stations being taken off the air. Apparently this station has tried to get SSB permission from the local authorities but with little result. According to reports, he is confined to 14025kc and while often reported, the reports are always within a few kcs of this slot. Taking a long look at things, if you hunger for BV2-Formosa, you had better brush up on your c.w. and watch that twenty meter spot.

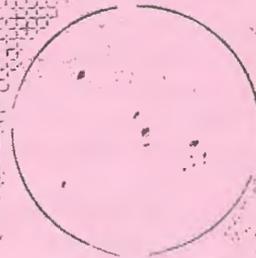

ALGERIA 7XØGM has been showing on 15meters rather frequently recent, last Saturday morning was on again just inside the 21275kc barrier and often found from here up to 21300kc.....from 1700Z. His XYL is 7XØGA and she is also found at times. QSLs go to Bx 2, Algiers, Algeria.

SUNSPOT LOUIE

The day to day sunspot activity last week indicated violent cyclonic activity with some spots changing their relation to each other by as much as 90° in a 24 hour period. Some spots are disappearing and others showing up on the course of one or two days.

June 5, 1972 1300Z

The spots shown on the diagram this week are from 3000-5000 miles in diameter with no large spots visible last week. There is activity and maybe you noticed it in the bands...

These reports from W8ZOK, The Watcher of the Bright Sunlight.....

EUROPEAN DX CONTEST (EUDC - WAEDC 1972). DK2BI wants to alert all deserving DXers to the coming contest....last year there were over 5000 entries in the test. This year the test will be as follows:

C.W. August 12/13

SSB September 9/10th.

This is an all-band operation 3.5mc to 28mc with both single and multi-op classes. The object for non-European stations is to work the Europeans with each call area in JA, PY, VE, VO, VK, W/K, ZL, ZS and UA9/UAØ thrown in for additional multipliers.

Full details can be obtained from the EUDC Committee, D-895 Kaufbeuren, Postbox 262, West Germany. Certificates are awarded to highest scorer in each classification in each country and continental leaders are also honored. Lots of activity and the start of the Fall DX Season.... As Lord Baden-Powell, the Hero of Mafeking, would often say: "BE PREPARED".

OLYMPIC DIPLOMA The OLYMPIA DIPLOM 1972 will be awarded to amateurs working at least 50 different countries sending competitors to the Olympic Games in Munich for the 1972 Olympiad. These can be worked between January 1 and December 31, 1972. No restrictions as to bands or modes. Send certified list with 6 IRCs or 1 U.S.-Dollar to the DARC OLYMPIA DIPLOM 1972, "Box 262, D-895 Kaufbeuren, West Germany.

SHORTLY NOTED Son of a Gun, we went out of our minds this week and still could go on for a bit. This is the first time we tackled an eight-page issue. WOW!! Some months back we told about an amateur in the Santa Clara Area with some tower problems. This one counter-attacked after the local authorities and the neighbors took him to court. The matter has been settled with the amateur collecting some balm for the whole matter. In other words, he ended up putting the bite on the complainants. How does that grab you?

We have been getting an increasing number of inquires as to just who puts out the WCDXB. Son of a Gun, we will have to tell all. WA6AUD comprises the full staff....along with the XYL to put the stamps and labels on. But the reason that this is not always made known in every issue is the feeling is that the contributors are the ones who make the bulletin possible. Those we list every week.

FPØVQ and FPØCA have been on in the last week...may even be there yet if the fog has not lifted. These QSL to W5VQ for FPOVQ and K2OJD for FPØCA. Nothing further on that FR7AI/Tromelin. It was FR7AI himself who passed the information. Present calls on Crete are SVØWS, SVØWT, SVØWLL and SVØWMM....none overly active. The Nadolny's there in Buffalo now have 3 5BDXCCs and 2 5BWAS in the family. How about that? W6AM was doing some more Reunioning....this time at the 52nd Reunion of the Class of '20...or thereabouts. Don was a Big Man on the Campus there...6'4" and 240+. Actually, lets face it. Did you ever see a skinny BIG CON? KJ6BZ leaves Johnston in July. PJ2VD is back in Curacao for another 3 years. VPØMX is active on South Georgia. K5AAD and WA5ZNY will hit VP2V/VP2P and FS7 starting July 7th or so. K5AAD is also a source for checking your WAZ and CQ Magazine Awards. Expect to hear JF1 calls soon..(JA).

KUWAIT 9K2AN, Nasir, usually operates Fridays only...14050kc on c.w. from 0200Z to around 0400Z and on SSB around 14295kc from 1800Z. Often around 1800Z a number of Middle-East stations will be on frequency visiting.
9K2AN QSLs to Nasir Hussain Khan, P.O. Box 736, Kuwait, Arabia.

CAMBODIA Tony Katiro of XU1AA will be leaving Khmer permanently, heading back home to Wales where he can be reached thru GW3AHI. Tony will have logs and XU1AA QSLs with him and possibly can be of help with QSLs for the contacts prior to his departure. John Van Lear was due in Phnom Penh last week and planned to operate XU1AA. Vong, XU1VS, is away in India on a three month study grant and XU1AA will be somewhat rudderless after Tony leaves.

EAST MALAYSIA Ed De Young was signing 9M6AB last week, this being the call of a resident there. This person also holds the call-sign of 9M8WUW and VS5AP but all a check of the Call Book showed was that 9M2IR holds counterpart calls in most of the Far Eastern countries...but we could not locate any information on 9M6AB. Indicators are that QSLs for 9M6AB and the VS5AA/VS5JA go to K3RLY.
Ed DeYoung was supposed to be back in Hongkong around June 10th and probably will have finished the operation by the time you read this. However, the call may pop up from time to time in the future. It won't be Ed who was hoping for CR9 but..no go!

WILLIS ISLAND VK9ZB, Brent, showed up from Willis last week...was at 14215kc/1300Z on June 3rd. Said to QSL to P.O. Box 708F, GPO Melbourne 3001.
This operator uses a QSO number system....which might be a hint to include yours on any QSL. Save with sufficient money to cover air-mail postage. Indicators are that all QSL will be direct...none through bureaus or any other route.
Another operator, Clem, has also signed VK9ZB from Willis, this one being at 14186kc at 1030Z on June 2nd. This one reported as mostly interested in talking to his XYL and not looking for DX contacts. This one will be on Willis until December.

WESTERN CAROLINES Stan Kohn, KC6SK, has changed his operations to Yap from Ponape in the Eastern Carolines where he signed KC6BK. Now Stan has a proper set of values, he is interested in DX. He will be on Yap for two years and will be working all bands, ten through 80---c.w. and SSB----with a FT-101 and at the time is operating with a 20mtr groundplane and a 40mtr inverted "V". Stan does schedule some prominent West Coast DXers including W6TSQ on 7mc c.w. Anyone still needing KC6BK QSLs can send the same to Box 55, Yap, W.Carolines 96943.

SPRATLY Still fresh and green in the hopes of those need a good solid contact with the China Sea garden spot. To keep the hopes alive, HS2AHC is building a boat and it should be ready for the sea in early Fall. His present plans include a possible Spratly operation and then anything else that might be interesting and not too far. His present plans call for a two year cruise in the Far Pacific and Indian Ocean areas with some DXing along the way.

WHERE'S THE DX.....??? Here is a compilation of DX Stations reported by Red Eyed Louie in the May 2/9/16/23/30th WCDXB issues. These are all local New Jersey times and may give you a graphic representation of band conditions.....

DX STATIONS REPORTED - PHONE OR SSB

All the data compiled by K6SE/2. To show the areas represented...the reports were:

	28mc	21mc	14mc	Band Totals were:	
Africa	15	81	132	28mc	32
Asia	0	61	198	21	311
Europe	0	102	220	14	858
Americas	13	149	129	7	46
Oceania	4	18	179	3.5	12

And More RED EYED LOUIE....

What is it now, that June shall surely bring
 New promise, with the swallow and the rose?
 My heart is water, that I first must breast
 The terrible, slow loveliness of DX

PREFIXES

WD4USA During the 4 days of the Democratic Party Convention in Miami.
 WR4USA During the 4 days of the Republican Party Convention in Miami.
 WR5OAR During the National Rotary Convention in Houston...June 11th to 14th.

QSLs for the party conventions go to W4EHW. For the Rotary Convention to WA5ZNY. Look for this one in the 9:00a.m. to 5:00p.m. CDT slot during the convention. That should be something like 1500Z to 2300Z. Both operations request s.a.s.e.

DXCC/WAS CHARGES

Effective July 1, 1972, the processing fees for non-ARRL members in the United States and possessions, including Puerto Rico, will be:

WAS \$3.00 DXCC Application \$5.00 DXCC Endorsement \$2.00

QST will also be going up to \$7.50 per year. Actually we should say your ARRL dues are going up....and you will get the QST free.

CQ WW TEST	October 28/29....phone November 25/26.....c.w.
VK/ZL TEST	October 7/8th....phone October 14/15th.....c.w.

PANDORA BOX NET There has been some problems affecting the operation of the net and in recent weeks there have been a number of occasions when sessions were not held. Most of the trouble appears to stem from Advisory Notices issued by the FCC on some portions of the operation. The Advisory Notices dealt with possible broadcasting and unauthorized 3rd Party Traffic.

The authorities issuing the notices were reported as being away from their office for six weeks following the issuances and this brought a degree of uncertainty to those receiving the notices with efforts made to transfer the Net Control duties to other stations, preferably stations not subject to the FCC rules.

The "broadcasting" charge apparently stems from making announcement of DX News, operating procedures and announcements at the opening of the net sessions. There is a point here which eventually will be clarified and this point affects matters such as ARRL Bulletin Stations. In the past the understanding has been that if the matter referred only to related Amateur Radio Activities it would be acceptable.

On the "3rd Party Traffic" this seems to stem from relaying of information to stations who cannot complete a contact, or filling in of information requested by DX stations or from them when this is not possible or is difficult in a QSO.

There are shades of meanings contained in the interpretation and handling of these matters, and the "Eye Bank Matter" which has been around for a good many months now looks simple on the surface but does develop a number of serious questions when it is delved into a bit deeper.

Undoubtedly there will be clarification along the way, and if it goes through the normal official channels it may be for years and it may be forever before the final answer is reached. Meanwhile the Pandora Box Net has some problems.....vexing and hard to answer.

EGYPT The Middle-East Desk reports that SU1MA, Moty, is back on SSB using some new tubes in his final and other places which were furnished by Henry Radio/Los Angeles and by others such as K6KA, W6YY, WB6UDC etc. Presently he has a few spares for driver and final and one extra tube for everything in the Swan CYGNET. SU1IM still on C.W. with a poor receiver. Efforts being made to obtain a good receiver for Ibrahim. SU1MI often busy at her dental clinic and has the tubes now to replace those broken in the rig sent by the So. Calif DX Club. Two other SULs reported active. Out towards the Giza Pyramids there is a Mosley Tri-bander on top of a villa.....nothing known here.

NORFOLK VK5XX operated W9=Norfolk during recent months, making a good number of QSOs, which including 59 countries, with a 25watt rig. Arch was visiting Norfolk at his own expense and has since returned to VK5-land. Some of his gear was damaged and parts lost during the return trip. Because of a number of reasons, one being availability of parts, WØJRN, is working to replace some of the items needed by VK5XX.

Jim is looking for some crystals: FT-243 holder 7002kc to 7050kc
3503kc to 3525kc

Even some in the old Bendix-type with the 9/10" spacing would be welcomed. Also needed are directions on adjusting the JOYSTICK antenna. If you have any of these you might think of sending them to Jim Shearer, WØJRN, 5985 South Milwaukee, Littleton, Colorado. 8Q121. Jim will send these on to VK5XX.

CONGO REPUBLIC TN8AU showed up a number of times in the last weeks, he was at 21253kc at 1930Z on June 4th...was at 21324 on May 30th around the same time. He has also been reported at 21053/1900Z. Name is Peter, QSL to VE2AVU.

TNX to W1AM, K2BT, WA2DHS, W2FXA, WB2YQH, K2LGJ, W2PN, W2PDB, W3CDL, W3POE, W4BA, W4BRB, W4EH, W4HU, W4KA, WB4PUD, W4UF, W4TUC, W5ALA, W5QBM, W5UBW, WA5ZNY, W6APW, K6AQV, W6BJI, K6GAK, WDX6GXV, WA6JVD, K6KA, W6KYA, K6LAE, WA6LLY, W6MAR, K6OJO, W6QL, W6TSQ, W6TTS, K6UFT, K6WR, W6YUS, WB6ZUC, W7PFZ, W7YTN, K7ZHS, W8BQV, W8ZOK, W9DDL, WØYDB, WØJRN, KA2AI, VP2MQ, HP1JC, CP1JV, W5CNU, W6ISI, DK2BI.

WEST COAST DX BULLETIN Published every week by the Marin County DX Group. One of the local QRPers got a card from FR7/Europa recently. Just tossed it with the discards. "I heard the bunch in there calling this one and figured it might be something real good", he said. "But after getting the card I can't even find it listed in the ARRL DXCC Country list". Son of a Gun, what does one say in the face of such tragedy. Only that many work Europa which counts for Juan de Nova but it seems that no one has worked Juan de Nova for years. And if this fails your lucidity test, try the WCDXB at \$9.00 for a full year.....\$10.50 by airmail. You may not be lucid but you will have a better idea why....and what DX you missed.
