

UGANDA 5X5NA schedules his QSL Mgr G3LQP at 14250kc/1830Z. Next schedule is this coming Saturday, February 26th...Patience and courtesy...do not break until the business is transacted.

SOUTH ORKNEYS VP8ME, Jay, coming through with a signal that crushes QRM, splatter and even a RTTY operating zero-beat on his frequency. Shakes the plaster off the walls.

VP8ME will be on the South Orkneys with the British Antarctic Survey until the early part of April. He has a schedule with his QSL Manager, WA5FWC on Tuesdays and Saturdays at 0200Z, 14255kc. Jay was not able to keep it last Tuesday but was in there Saturday and cleaned up a long list that had been accumulating. Jay sometimes tries RTTY at 14003kc around 0300Z.

NIUE ZK2AF, Wally, reported to have packed his gear and is off the air for good. There is no station on Niue at this time and scant prospects for anything for some time.

FORTY/EIGHTY DESK

Many stations on the Geritol Net (3808kc/0400Z) looking for 5BWAS/Two Letter Calls ...and generally they find them in bunches.

9Q5PF will be at 3510kc at 0430Z on Feb 27th looking for two-letter WAS contacts..plus anything else that might come along.

W4BRB/VP7 had 372 QSOs with 63 multipliers in the CQ/WW 160mtr test. The station was heard by EL2CB in Monrovia but they could not get together. W4BRB looking for future action at HH9DL. VP2LY will try 3505kc at 0200Z on Sat/Sundays.

SHORTLY NOTED Son of a Gun, six pages again. Someone has been spreading that BY1RN will be on this week...your local TV Channel the best place for the late information. This is an ex-6 lander. BV2A logs for QSOs up to June 1971 just received by WB2UKP. And TU2DJ has not had his QSLs printed up as yet. HC8PS QSLs received from printers and all cleaned up this week. If no case, they went to bureaus. ZD3Q QSLs received this week for effort of DJ6QT of last Fall. Patience...others will surface eventually. Darlene was on the YL-SSB System Saturday morning from the Galapagos and will be there until the 25th operating the rigs at HC8FN and HC8PS. She will then continue on her South American tour. Earlier last week she was signing WA6/OA4. Some fantastic conditions last week with ten meters opening with a bang into Europe from the West Coast.

SU1MI calling the West Coast LP most mornings between 1500-1600Z. SU1MI also reported about the same time and some say they even sound alike. K6KA will be visiting soon and will bring some 6146s for Moona's new rig. K6KA would like to have some donations of 5U4s and OD3s to repair the Viking Navigator transmitter sent Moona by the So. Calif. DX Club. KA2AI expected to take a swing through the SouthEast Asia area in April and has his eye on some exotic spots. Sam will carry a FT-101.

REPORTS FROM RED EYED LOUIE

The World Will Never Starve for Want of Wonders,
But Only for the Want of DX.....

RED EYED LOUIE SPEAKS.....

Occasionally someone will ask why Red Eyed gets so much space and a lot of it just medium rare DX. "Why not concentrate on the good stuff like TN8, 7G1, YI, 601, 3Y, AC3....stuff like that?" The only problem with that approach is that those countries are either not available or rarely on and....frankly....Red Eyes is aimed at those in the 100-200 DXCC category. Possibly the coverage is extensive but in these times of the declining Sunspot cycle, almost every week there are more than enough countries listed to round up a DXCC.

There is a 15mtr Russian in the above, a relatively rare report as this is the area where a higher class Russian license is required. There are two 'UA0Y's which are in Zone 23....which sometimes surprises people and there apparently was some kind of an internal Russian test on last week as there were multitudes of deep-Russians on during the period after Lincoln's Birthday.....

NORFOLK ISLAND Arch Hewitt, VK5XK, will be making a trip to Norfolk in April and will again operate there as he did ten years ago when he signed VK5XK/VK9. Arch plans only c.w. operation and probably will be low-power. Transportation is the problem and little more than bare essentials can be taken.

Back ten years ago Arch won the CQ Test Award for Oceania being the only entry from Norfolk. While VK9NP operated from the island in 1971 and Larry ran up a fantastic total of QSOs, you can be sure that there will still be some needing Norfolk.

Presently there are three licensed amateurs on Norfolk, VK9RH being the most active but he is not especially interested in working much DX.

VK5XK will be on Norfolk from April 4th to April 22nd. Presently he is in need of some crystals for the 7000kc-7050kc slot and would appreciate any donation of surplus crystals. Also, anyone who might wish to try a c.w. schedule, should write to Arch by March 15th. The address is Arch Hewitt, 31 Ivey St, Ottoway SA 5013, Australia.

COCOS TI9C did show up last week, working a number of stations on several bands. QSLs for this one go to TI2CAP

CHAD TT8AC, Gus, coming through almost daily on the LP. 14265kc +/- from 1500Z. QSL to W4SPX or to P.O. Box 438, Fort Lamy, Chad Republic.

TNX to W1AM, K2LGJ, W4BA, W4DUQ, W4EH, W4GTS, W4HU, WB5JLO, K4IIF, W4QFM, W4TUC, W4UF, WB5BFZ, WA5OKC, W5PAQ, WA5ZNY, W6APW, W6CLM, K6EC, W6EJJ, WA6FYC, WA6AHF, K6LEB, WA6MWG, K6KA, W6KHS, W6KYA, K6LAE, K6MHD, W6ONZ, K6QF, W6TSQ, W6TK, K6TXR, K6UFT, K6UJS, W6ISI, K6WR, W6YO, W6YFR, W6YUS, W6ZBS, W7YTN, W7PFZ, W9DDL, K9PQG, K8RWL, WA9VOL, W9WKU, W0IYP, W0SUU, W0YDB, JA1HFN, HS5ADB, WA7KEF, W3NB, W8KGR, JA0CUV/1

WEST COAST DX BULLETIN Published every week by the Marin County DX Group. One of the local QRPers came by last week, some notes clutched in his hand and a puzzled look on his face. "Say", he said with his usual original opening, "I heard that the ARRL will do nothing one way or another on Maria Theresa until someone goes there and verifies how deep the ocean is at that point". The QRPer paused, deep in thought and a furrowed brow, and then continued. "Wouldn't that be a DXpedition to prove a country is not there?". Son of a Gun, What could we say? We furrowed our own brow on this one. The negative approach is astounding. All those working this DXpedition could have a sticker for their DXCC Certificate...."Minus One Country". The only problem might be Rule 8 which says all stations contacted must be "land stations". We ran this one up on our third-of-a-century house bureaucrat and he smiled: "Perfectly simple", he said. "A clear and lucid situation". Let's face it...this one needs thought..meanwhile be confused every week..\$9.00 by surface and \$10.50 airmail
