GAMBIA OH2BH, Martin Laine, will open fr a Gambia this Tuesday and will sign ZD3X through the CQ WW Test this week-end. Martin planned to start operating as soon as he got set up and after the CQ Test would stay on for a short vacation.

For those who thirst for c.w., Martin promises some high-speed work on the following frequencies during the CQ Test.....SSB up to the Test....CW, naturally, in the Test:

CW: 3501kc 7001kc 14030kc 21030kc 28030kc

He will be operating Drake gear and will have a T4XC and R4C along with a TH3Mk3 beam and a 14AVQ for the lower frequencies.

Martin also plans for SSB operations from ZD3X and the frequencies for these will be:

SSB: 3780kc 7080kc 14195kc 21295kc 28595kc.

SSB will be the main mode up to the contest, then it will be to CW and a big score. QSLs will go to OH2NB. Martin's XYL Leena will also be with him in Gambia.

KAMARAN Late word is that licensing problems have brought to a dead stop the plans for VS9K-Kamaron operations this week.

JAMAICA The Northern California Contest Club will operate 6Y5BF from Jamaica during the CQ WW Uproar this coming weekend. Operators will include W6RGG/K6DC/W6OKK and WB6OOL.

The group will operate in the multi operator/single transmitter class and plan to work all possible bands with 160mtrs questionable at this last week-end. The main operating frequencies will be 30kc inside the lower bandedge...give or take a handful of kcs and possible QRM.

QSLs will be handled by WA6AHF. WB6OOL is again off on a DX effort, Pete having been part of the ZK1TA effort last summer. He got held up at Aitutaki and spent a lot of the waiting time putting ZK1AI on the air.

MADEIRA ISLANDS CT2AZ will be making plans to operate from CT3-Madeira Islands right after the turn of the year, planning to operate from January 1st to 15th. CT2AZ is J.L Ritzen station in the Azores with the U.S. Navy.

MELLILA EA9AA will be going to EA9-Mellila for a couple of days at the opening of December. Some effort will be to look for the elusive sixes and sevens and other deserving DXers. More information is expected to be available next week.

BURUNDI Word coming over the Africana Net is that there is a good possibility that all 9U5s will be off the air by the end of December if not before. 9U5CR has been expected to return to Burundi but has not been heard as expected on the Africana.

SEAsia Karl Gamper, VE8RA, attended the SEANET Convention in Singapore early this month and expected to open from Thailand signing HS1AJY around November 15th and to run until the end of the month. Karl looking to work DXCC from Thailand. The W6-group who had been aiming for Cambodia returned home last week, their plans for XU1AA not meeting any success.

REPORTS FROM RED EYED LOUIE

See, the conquering DXer comes!
Sound the trumpet, beat the drums!

CAMPBELL ISLAND ZL4NJ/A is on Campbell Island and will be there for another ten months or so. This one QSLs to ZL3IT.

INTRUDERS K6KA in reporting on the Intruder Watch, notes that conditions have not brought in many intruders recently except for some harmonics on 21mc and 28mc, all the way up to 29mc from Asia. Questions have been raised about several 14mc stations including GYS4/5/6/7 which is in Singapore and sometimes found at 14198kc. Some RTTY stations have been noted like HMD in Pyongyang 14237/14239kc; BIL31 in China with a RTTY signal at 14133...SPH4 at 14113....UF83 at 14336kc...BXP54/BZR66 from Peking and UOT40 at 14263kc. A buzz from a Helleschreiber A4 FAX is heard at 14239kc and is in China. XVK13/B in Saigon puts out a spurious from 13998kc. At 14070kc and other places is a harmonic from Radio Peking or its jammer. KPA at 14204kc/A1 signal is Hanoi diplomatic traffic and some odd SSB signals in the 14mc CW bands are spurious signals from Japanese phone equipment from 14100 to 14350kc. VOA in the Philippines has reduced the harmonic at 14310kc...it has not been reported since September.

CALENDAR

GAMBIA ZD3X by OH2BH until November 25th
 BHUTAN A55KV by W6KNH/VU2DV at end of December
 BAJA NUEVO HKØAA by WØ Group and friends late December
 CQ WW TEST CW go-round....this weekend. Prepare!!
 ARRL 160 mtrs December 8/9th....
 ARRL 10mtr TEST December 15-16th.... Do your Sunspot Dance!!
 PJ ACTIVITY PJ1-call to commemorate 25th Anniversary of PJ stations....December.
 ARKANSAS DX MEET Ft Smith....Trade Winds Hotel....December 8th
 WORLD DX TEST World Championship competition....all 1974. Starats Jan 1st

ARKANSAS DX MEET Bob Furzer, A2CCY, and Sanford Hutson, K5QHS/CEØZ, will be the main speakers at the Arkansas DX Meeting on December 8th at Ft. Smith. Both A2CCY, who has provided 5-band contacts from Botswana, and K5/CEØZ who recently operated from Juan Fernandez, will illustrate their lectures with slide presentations. The meeting will be at the Trades Winds Hotel in Ft. Smith and the cost for the dinner meeting is \$5.50 per person. Reservations can be made with Bill Priakos, W5KGJ, 1302 57th Terrace, Ft. Smith, Ark 72901 and they would like to have them in by November 25th if possible.

MOROKULIEN IG5LG and SJ9WL turn up from time to time and sometimes an inquiry is included as to just what they might be.

Morokulien exists as a fictitious country exactly on the border between Norway and Sweden, being between the Norwegian town of Kongsvinger and the Swedish town of Charlottenberg.

It came into existence in 1959, that year being designated as The International Refugee Year, and in connection with a series of radio and TV broadcasts by the Norwegian and Swedish broadcasting corporations. A square kilometer of ground has been decided to be dedicated to Morokulien and in the center will be the Peace Monument dedicated in 1914 to memorialize the 100 years of peace between Sweden and Norway. The radio station is maintained by ARIM, jointly operated and maintained by amateurs from the two countries and any income from the operation goes to help handicapped amateurs in the two countries.

IG5LG QSLs via LA4YF and SJ9WL (ex SK9WL) goes via the SSA QSL Bureau and cards should be accompanied by a minimum of three IRCS which constitute the assistance to the funds for handicapped amateurs.

GRAND CAYMAN ZF1FOC will operate from Grand Cayman in the CQ WW CW Test this coming weekend and will leave Miami this Tuesday. Look for him in the low end of eighty and he plans to burnish the kilocycles in the 3500kc to 3515kc area.

TRINIDAD 9Z4GS will be on 160mtrs with full kw during the CQ Test...9Z4CW will be also heard in a multi-multi effort. Both groups looking for action, action, action...

With regard to those figures on potential use, the EIA predicted a potential of 10,000,000 Class E licensees. The FCC indicated that they would like more information on how and what calculations produced these figures. The EIA reply was... 'projections-----expected-----should be-----experience indicates' and similarly worded statements.
