

# WEST COAST DX Bulletin

+++ ++++++++ ++++++++ ++++++++ ++++++++ ++++++++ ++++++++ ++++++++ ++++++++ ++++++++ ++++++++ ++++++++ ++++++++ ++++++++ ++++++++ ++++++++  
June 5, 1973 23-73

TRINIDADE Scheduled to open this Friday, June 8th, and should run to about the 13th. No late word on special call-signs has been received and while PYØZAA and PYØDVG are possibilities, do not be surprised if some unusual prefixes show for this one. Frequencies will be:

OW: 1827kc 3502kc 3527kc 7002kc 14027kc 21027kc 28027kc  
SSB: 3797kc 7097kc 7197kc 14197kc 21297kc 28527kc

QSLs will go to Rolf Rasp, PY1DVG, P.O. Box 51-ZC-00, Rio de Janeiro, Brazil. In addition to Rolf on this effort, WA3HRV, who is with the U.S. State Department at Buenos Aires, will be the other operator.

THE GREAT JA-DXPEdition TO OGASAWARA The projected JD1-multi-operator August effort is still on the rails and the last count had some 450 JA operators preparing to work everyone from the island. The SONY Amateur Radio Club is planning to send 50 operators from its own group for this trip. The Jacques Bonet Memorial Plaque will be awarded to the amateur working the largest number of amateurs on this DXpedition. Initially the plan was for some 200 JAs to fill the air...now it is over 450. More details to follow but for sure the Jacques Bonet plaque is worth the effort.

CHINA Some operators working for the Japan Air Lines (JAL) are hopeful of obtaining permission for a BY-DXpedition in the near future. There are things and people who are working towards this end. Some eventually will be successful though some inside sources say that probably the first loosening of restrictions will find some Chinese on the mainland putting a station on the air to ensure prestige for the locals.

ITU In early May the Administrative Council of the International Telecommunications Union voted to hold a worldwide conference on radio regulations sometime in the 1978-1980 period. This appears to be the first ITU move looking for a conference on the hi-frequency bands. Some feel that the conference may be divided into two sessions, one to cover allocations and the other regulations.

PARCE VELA The JA DX Assn still waiting on inquiries to the ARRL on possible country status for this island west of Guam. Should this one look right a JA group would be prepared to make an early trip to the island.

OGASAWARA - MORE JH1ARJ, JH1DTC, JR1USV will be leaving for Ogasawara/JD1 this Wednesday and will be joined by JH1JGX and JR1IBQ a week later. The first group will be establishing a station and a campsite and the balance will come in when things are set. Recently the JA-PTT has changed regulations and probably will not issue JD1-callsigns for short operations. The stations probably will be using their own callsigns with /JD1. A permanent station on Ogasawara may be established by the Japan DX Association.

SUNSPOT LOUIE Only one spot appears on this weeks chart, this one about 9000 miles in diameter. This is what remains of a two spot group which appeared about a week previous and it disappeared to the backside of the sun about May 31st.

No new spots had appeared at the time of the observation but as of Saturday WWV was forecasting some unsettled conditions with a U-6 forecast. Bands were in good shape last Saturday with evening openings into Europe on twenty.

While we are in this area, it might be noted that astronomers are expecting a extremely large comet to be visible in the skies this fall, some astronomers saying it may be 50 times brighter than Halley's comet and you will remember how bright that one was back in 1910. This one is so large that it is expected to cover about one-sixth of the evening sky and should make its closest approach to the sun in December.

SHORTLY NOTED The ARRL Board of Directors will be meeting starting July 19th. If you have any ideas on how to save Amateur Radio, get in touch with your Director. The U.S. Supreme Court has agreed to review some decisions of the U.S. Court of Appeals concerning Federal licensing and application fees. Seems there may be some conflicts and it may stall any changes for a time.

Dave, VQ9D, has been mentioning a possible trip to Farquhar later this year but nothing apparently jelled as yet. ZA1AB gave WØDAK as his QSL manager during the operation last Fall. This was Adriatic Slim and W7TE who used to hold the WØDAK call still is getting QSL cards by the bushel from the hopeful. All Gene can say is that it is hopeless.....while he has worked Slim many a time, he has yet to get a QSL out of him that will stand up.

9G1HO QSLs to Harry Zaklikian, ACCRA-Dept of State, Washington, D.C. 20521. YA1AH may go back to AC3-land later this year. Things have settled down a bit but there may be some changes in the way the country is administered. OK5Ø call signs are to mark the 50th anniversary of Amateur Radio in Czechoslovakia. The DT-prefixes are to mark the 20th Anniversary of the return of amateur radio in Germany...the VE8RCMP was to mark the 100th Anniversary of the Royal Canadian Mounted Police.

There are some mutterings that the next effort from Jarvis Island will possibly find it counting as a new one. Son of a Gun!! Also, Palmyra is still a good possibility for later this year with some SoCAL DX operators arranging their social schedules so they can make the effort.

G3NDY was signing 3D2JA from the Fijis last week but will not get to Tonga as planned. VQ9D has been showing up around 21275kc/1930Z regularly recently while Jackie, 3B6CF, on Agalea has been low down on fifteen....21245kc...and has been asked to move higher for the suffering W/Ks. SV1DB/A QSLs are being received from various participants ....but.....SV1DB has indicated that he is the only official source for QSLs for the effort. All of this being based on the feeling that he held the license and organized the whole junket. What to do??...if in doubt QSL all of them but especially SV1DB.

Generally the W6/W7s not too concerned about this. WS3SKY QSLs to Box 86, Greenbelt, Md.

NOTES XU1AA with Vong as the operator has been showing on the SEANET..14320kc/1200Z.  
Often HS4AGN, Pete, in there to direct the traffic. OH0MAS from Market Reef was coming into the Western Reaches Saturday from 0300Z...around 14220kc. 8Q6AC QSLs to 4S7WL. This also is in the Maldives along with the VS9 prefix. Some wondering if the Dahlak operation is not too close in to the coast to qualify for a new country.

AND MORE RED EYED STUFF...

 (all times in gmt # = Long path ??? = Slim is with us for ever!!)

St. VINCENT W2MIG has made arrangements with VP2SQ to take on the QSL chores with VP2SQ trying to clean up the backlog on the outstanding cards. W2MIG is having a supply printed for the VP2SQ duties and will be in full business by early June. Ed maintains a schedule with VP2SQ at 21300kc/2200Z on Thursdays, the frequency sometimes sliding a bit to avoid QRM. W2MIG goes to 47 Palisade Road, Elizabeth, New Jersey 07208

HIGH SCORES...ARRL DX TEST High claimed scores in the 1973 ARRL DX Test run as follows:

W/VE CW: K1NOL, W1BPW, K1LPL/3, W1YK, W2GXD, K1DIR, K1VTM, WA1RCP, WB4YOJ, W2DXL.

DX PHONE: 6J9AA, 4M4AGP, KS5JF, XG1J, LU5HFI, VP2MY, KH6BZF, KH6LJ, 9Y4VU, CE3AQW.

W/VE PHONE: W7RM, W6RR, K6EBB, W1YK, K1JHX, K1VTM, W4ZCY, K1THQ, W3GRF, K6SVL.

The full listing of high claimed scores will be in the July QST.

TNX to W1AM, W2DPL, W2OVC, W3CDL, W3DJZ, W4EH, W4HU, W4KA, K4KQ, WB4KZG, W4NJF, WB4SIJ, W4TUC, W4UF, W5AK, WA5EMH, W5QPX, K5LIL, W5OSJ, W5QBM, W6AOA, W6FET, WA6FYC, K6HTM, W6ID, W6KYA, K6LAE, W6MI, WA6MWG, W6OL, W6TSQ, W6TTS, K6WR, K6UFT, W6YHT, K7CBZ, W7FSE, WA7KEF, W7NCO, K7NHG, W7YTN, W8OA, W8ZOK, W9YRA, W9DDL, W9WU/4, W0BWJ, W0JRN, KC6SK, JA1KSO,

WEST COAST DX BULLETIN Published every week by the Marin County DX Group. It was, as usual, one of those days like all days, full of problems and the QRPer had them. He got right to it. "There were these two DX stations", he explained, "and they were most careful in their operating. When they got to their QTHs they even spelled them out phonetically. But the band went out before they were half through". The QRPer fastened his beady eye on us and asked: "Is technique all that important?". We thought this over for a bit and needing more input, we asked: "What were the QTHs?". The QRPer shrugged. "Well, one was down there in Tegucigalpa and the other over in Petropaviosk". Son of a Gun, what could we say. Some problems stagger the mind with their implications. Others learn to QSL via the Bureau. \$9.00 for a full year of failing light on the path to DX great problems, \$10.50 brings the unanswered questions by airmail.
