June 4, 1974

23-74

KINGMAN REEF Things are still moving for the Northern California DX Club Kingman Reef effort and some of the operators will be departing by this time next week with Kingman expected on the air about June 20th. Pete Grabosky, WB6OOL, who will be making the boat trip from Hawaii, has passed along the tentative operating frequencies.

CW	3525kc	7025kc	14025kc	21025kc	28025kc
SSB	3805	7095	14203	21275	28503

These are the transmitting frequencies and the listening frequencies will be announced as they go. There may be a necessity of shifting some frequencies either way for various problems but they give the general band spots to watch for KP6KR.

Some question has come from DX Stations which can only QSL through bureaus. Last week it was indicated that W6WX might be given as a QSL route and especially for those that will come through QSL bureaus. An old Call Book may give problems in this instance should anyone try to use this callsign for a direct QSL. This was the call sign of Dave Baker, long time stalwart in the Northern California DX Club scene and a silent key in 1971. The call is now held by the Northern California DX Club Repeater Assn with W6BH as station trustee. W6BH is also Chairman of the Northern California DX Foundation. This may possibly start to clarify things and QSLs sent to either W6WX via bureaus or to Box 717, Oakland, Calif., 94604 will all end up on the same desk. What it all amounts to is that both routes are good.

FANNING Sometimes overlooked in the anticipatory jumps for joy over a possible new one is that this Northern California DX Club/Northern California DX Foundation upcoming effort in the Pacific will also activate VR3-Fanning and KP6-Palmyra for a couple of days.

WB6OOL, Pete, will arrive on Fanning for a stay of a couple of days around June 14th. He has applied for a VR3 call but as of last week-end this has not come through but is expected. Either way, Pete will operate from Fanning for a couple of days while enroute to Palmyra/Kingman. He will be with Jack Wheeler, KH6CHC, who owns the boat that is providing transportation and who is visiting Fanning where one of his daughters was born. Look for Pete in the area of the frequencies given for the KP6KR operation. A year ago he was on the Tongareva effort but was part of the group that got stalled at Aiutaki. This year Pete says he will plant the Northern California DX Flag on Kingman. Why? 'Because it's there', says Pete, "and a new country to boot". As we used to say on the John Muir Trail....."Excelsior!!".

MT ATHOS Still a go for the period around the turn of the month. Some problems still turn up from time to time but Martin is still looking for an early July operation, possibly opening up a day or two before the end of the month depending on some developments. More definite information should be coming soon.

REPORTS FROM RED EYED LOUIE

Ask us, prophet, how we shall call.....

DIPLOME des 100 Last September, the Secretary General of the International Telecommunication Union announced the establishment of an award for amateurs and SWLs in recognition of their efforts to promote international good will through amateur radio.

The award, known as the DIPLOME des 100, will be given to any amateur who submits proof of contacts with amateur stations in each of 100 countries, members of the ITU or to SWLs who submits proof of reception of 100 countries amateur stations. There are presently 145 member countries. Stickers will be given for each additional ten contacts after the initial 100. Contacts must be made after January 1st of 1967, or the date the country entered into the ITU treaty if after that date. K4ZA will handle the applications from W/Ks etc and further information including a list of the countries and their effective date of entry into the ITU can be obtained there.

CALENDAR

KINGMAN REEF
FANNING
MT ATHOS
CARIBBEAN
DES ROCHES
PALMYRA
MARCUS
NAURU

Getting well down the road...June 20th target date.
WB600L from VR3-Fanning for a couple of days about Jun. 14th
OH2BH and Co. around turn of the month...or early July.
K5QHS from FM7/VP2D/FG7 from June 28th.
VQ9s planning some late June/early July activity
KP6PA should be active in connection with Kingman Effort!
JA8IEV presently active from Minami Torishima
JA10CA aiming for August action signing C21DX

BANGLADESH PA0IWH is in Dacca and will be there until this time next year. Often found on or about 14235kc from 1700Z, PA0IMH/S2 also keeps a schedule with JA3KWJ in the 14280kc country about 1500Z on Sundays. QSLs for this one go to Box 681, Dacca. The other active station there, SM2DWH/S2 is due to leave in a week or so and probably will not be heard after this coming week.

ISLANDS ON THE AIR There will be a couple of these in the coming weeks and you may wish to watch for the following:

TREMITI (IOTA EU-So) I2CBM will be active from these Adriatic islands on the last week-end in June, operating around the clock from June 28th to July 1st. The callsign will be I2CBM/IL7 and they will operate: SSB 3780/7090/14190-200/21280-300/28590kcs. CW 3540/7040/11040/21040/28040. In some instances they will be advising the listening frequencies. Operators will include I2CBM/I2SLA/I2VDX/I2YDX/HB9ALX...QSL to I1YDX, Box 4, 21100, Varese, Italy.

RICHARDS ISLAND VE8CV will be operating from the Gulf Oil Co Base Camp at Swimming Point on Richards Island in the delta of the McKenzie River on June 14th and 15th. This is at 69 N and 134 W. Frequencies will be 21350/21125/21025/14300/14025/7205 and 8025kc...plus or minus but generally within 10kc. QSL to VE8OX. 48 hour operation with possibility of repeat efforts in July and August.

USSR '30' CALLS The word on these is that they are to commemorate the 30th anniversary of the liberation of Soviet territory in the Great War a few years back. There will be a 24 hour operation from certain cities to mark their liberation with the suffix tied in someways with the name of the city involved. Look for UC30-Vitebsk on June 20th...followed by others in the UC area in the following weeks...like Orsha on June 27th/Mogilev on the 28th/Bobruisk on the 29th and Minsk on July 3rd. On Jul 13 look for UP30 from Vilnius. Beyond these there may be more surfacing.

LORD HOWE VK2BKE was at 14260kc/0525Z on May 28th and saying he was on Lord Howe and would be there for a year. Said to QSL to "Ken, Lord Howe Island 2898 Australia. VE8RA has run into some transportation problems on his plans for Lord Howe and at this point his plans are somewhat indefinite with a possibility they will be scratched.
