

June 27, 1978

26-78

TRAQ Things have not worked out just as needed and one document was still holding things up last week-end. This is a customs document and considered essential in taking some gear with power into Baghdad. As of the weekend this has not come through. The Embassy officials in Baghdad have requested that everything be in exact order and fully documented before any moves are made and even the minor document is considered as essential.

The target date now is July 8th. It is expected that things will fall into line by that time and there will be a week of operation with the FT-500 with the strong signal. There is also the YAESU gear, shipped direct to the Baghdad Radio Club from Japan and presumably waiting for someone to check it our and get it on the line.

One way or another the operator expects to go to Baghdad on July 8th.....with or without the FT-560. He will be there for a week, up to July 15th weekend.

Plan your work schedule for this. There will be action out of YI1BGD starting the second weekend in July and things may be right for the Deserving. You will note that NLXX has things pushed up to 'Above Normal' for the two days prior to July 8th and next week we will have the expectations for the week of activity.

YI1BGD has been reported as active recently but the relatively weak signal makes working the station a bit difficult. It is not only the Suffering Sixes and Sevens who are waiting, there are a lot of the Deserving all across the country and in One, Two, Three and Four-land waiting for the Big Day. It looks like it will be here in July.

WALVIS BAY ZS6ANE, Brian Forded, and Fred Mason, KH6OR, will be at Walvis Bay next Monday and Tuesday, July 3rd and 4th, and working twenty SSB trying to fill some of the demand.

Look for them around 14205kc and listening from 14207kc up. They acknowledge that this is not the best arrangement and are asking that those looking for them not to call on their frequency. In fact they would like a bit of room if possible.

ZS6ANE will be again operating at his son's location at Walvis Bay. There is agreement that the set-up there is not the best but they are working to improve it and will be especially looking for the Deserving.

What will it count for? Right now maybe only SouthWest Africa. But there are some who expect it will count for something else...like DXCC. South Africa has claimed Walvis Bay for a lot longer than it had control of SouthWest Africa and says that it intends to retain this port on the Atlantic side of Africa. When the once German colony, then Southwest Africa under South African control after WW I, goes independent under the name of Namibia in a year or so, South Africa will be separated from Walvis Bay by intervening territory.

As in the case of Transkei and Bopthutswana, work them now and worry later. Make that Bopthuthatswana....we have not spelled it for a couple of weeks and skipped a bit. All of these will delight you one of these days and be not surprised if STORK does pop up as one of the anointed lands before long. Save your QSLs for this one...they should count soon.

BOUVET The possibility of action at end of the year continues bright. There is more confirmation that a Norwegian group will be on Bouvet in December and possibly staying for up to two months.

This will not be strictly a DXpedition but rather a group on Bouvet doing scientific research. The LA-DXers close to the planning are attempting to keep the importance of communications alive and the necessity of letting the Deserving know that Bouvet is available.

The last week or so of December and January and February are the times to be ready. Remember---December!!

MELLISH REEF Getting solid! Bob Walsh, WA8MOA, and J.B. Smith, P29JS, will rendezvous with the vessel at Lord Howe Island. The rest of the crew will sail from the mainland on the ketch 'Banyandah' and the travel time to Mellish from Lord Howe is expected to be about four days.

Transportation is the costliest item, the charter of the vessel running a bit over \$3500.00. The plan is for at least a ten day operation signing VK9ZR. Definitely in on the effort at this time are the two listed above plus the DXpedition leader, VK2BJL, Harry Mead. There probably will be a few more operators added to the effort.

The Northern California DX Foundation is working with the crew to help bring Mellish Reef on the air and will cover part of the expenses. While the crew is not actively soliciting support, the understanding is that none will be refused and the financial picture at the close of this effort may have a bearing on some other efforts being considered. WASMOA, Robert Walsh, can be reached at 9911 Corsline Road, Battle Greek, Michigan, 49017. VK2BJL's address is P.O Box 85, Round Corner, 2158, New South Wales, Australia.

There are eleven active areas shown on this weeks chart. In addition to these there were three other areas not shown on this chart because while active, no sunspots could be noted.

And more active areas are expected to come in around the eastern limb and make another pass across the face of the sun. The DX conditions are starting to show the effect of all of this with fifteen open and some times on paths which are not in the daylight. Some think that the Great Days of DXing are with us.

1978 might be a year to remember. This week we are at the half-way mark and Clipperton and Iraq have appeared though many have not worked the YI station as often as they might desire. Bouvet is looking very good for the end of the year and there are some early warning rumors of some other big efforts. Those lists of the 'Ten Most Needed Countries' may be a bit thin by the end of 1978.

The last time that a list was compiled, W1AM and the Southern New England DX group dug out the statistics to show what the DXers were needing and the first ten or so were:

| 1. | Iraq            | 7.  | VS9-Kamaran |
|----|-----------------|-----|-------------|
| 2. | Bouvet          | 8.  | Burma       |
| 3. | South Sandwich  | 9.  | Albania     |
| 4. | Clipperton      | 10. | South Yemen |
| 5. | 8Z-Neutral Zone | 11. | Heard       |
| 6. | BY-China        | 12. | Spratly     |

3 spots But not only are these ones either coming on 10 millionths the air, but in many instances the subject of 8 spots some good rumors, but there is a lot of other E690 250 millionths DX around. As N4XX says: "Luxuriate in it for now but even better days are coming!" And with that 1 spot E82° 140 millionths Ted comes up with a few ANs to indicate what are the days ahead going to be. And Ted says:

| June 25th | Above Normal       | Jul | lst | Low Normal   |
|-----------|--------------------|-----|-----|--------------|
| 26th      | High/Low Normal    |     | 2nd | Below Normal |
| 27th      | High/Low Normal    |     | 3rd | High Normal  |
| 28th      | Highslipping to Lo | W   | 4th | High Normal  |
| 29th      | Disturbed          |     | 5th | High Normal  |
| 30th      | Below Normal       |     | 6th | Above Normal |
|           |                    |     | 7th | Above Normal |
|           | •                  |     | 8th | High Normal  |

Son of a Gun! Everything is falling into place and even Ev the WWV Watcher says that while the Flux fell off, like the Dow-Jones, it always comes back and was headed for the One-Sixties again. All the figures you need for the chart can be lumped into.....

|     | Sol          | ar Flux    | Ap Index | Sola         | er Flux    | Ap Index |
|-----|--------------|------------|----------|--------------|------------|----------|
| Jun |              | 116<br>117 | 8        | 16th<br>17th | 137<br>144 | 6        |
|     | 14th<br>15th | 125<br>128 | 6<br>7   | 18th         | 151        | 9        |

And, as has been noted previously, what does a Deserving DXer say in times such as these. "More!!"

nterproducts 👄 2377 Pollard Ct., Los Gatos, CA. 95030 U.S.A. SHORTLY NOTED The second Radiosport Championship will be upon us in another week, this contest sponsored by the IARU coming on July 8th and 9th. There are a number of awards and certificates available for this test....but....Canadian and U.S. entries mucht be on official log sheets, accompanied by official summary sheets. You still have time to rush off a large envelope to the ARRL and they will cheerfully fill your needs. CD-77 will also help in keeping track of the W/VE contacts and CD-175 will help with the DX checking.

You need your ITU Zone for the exchange in this test. W1/2/3/4/8/9 are in ITU  $\emptyset8$ .  $W5/\emptyset$  are ITU  $\emptyset7$ . W6/7 are ITU 06. KL is  $\emptyset1$ —KH 61—KZ—11 and KG6R/S/T 64.

Spanish Sahara will disappear within a couple of weeks from the DXCC list. You will find it in the July QST. August 1st it is deleted.

Most JT1 QSLs go and come via Box 639 there in Ulan Bator. Often the coming is a long wait. Some of the SouthEastern DX Club have tried sending 31¢ U.S. stamps as a help. It seems to work. One sent some stamps and got back (1) a photo, (2) IRCs, (3) a letter and (4) mint Mongolian Stamps.

While digging around the QSL vineyard, the response to the query on PYØZAE QSLs for the Trinidade effort of a couple years back was surprising. There are an aswful lot out there still waiting for the QSL to come. Some have sent (1) money, (2) money and (3) money and nothing happened. If anyone has a chance to get some update on the status of PYØZAE QSLs we would like to hear.

Some consideration may be giving to tightening the reciprocal licenses and this will stem from what appears to be abuses of the privileges. One proposal would prohibit the simultaneous holding of a U.S. license and a reciprocal operating permit. Another item brought up was that an applicant for a reciprocal license must be a citizen of the country under whose licensecis the basis for the reciprocal application.

The ARRL Board will be meeting in July. If you talk with your Director you might explore this subjecg.

Up in Canada the amateurs are working towards an understanding with the Dominion's Department of Communications and especially aiming to do something about the 'Experimenters' license. The VE amaterurs are not waiting for things to fall their way, they are out pushing things around to get them in some semblance of the order they desire.

On that TF6M operation coming in a couple of weeks. The c.w. frequency will be five kcs to on 80/40/20/15mtrs. There will also be action at 50kc up on twenty/fifteen/ten meters. SSB frequencies are 3790/7090/14190/14205/21250 and 28600kc. This one is due to show July 20th to 23rd.

K1MM was in CE3 a week or so back checking out the possible October San Felix activity. He was also caught signing K04MM on the way back from Chile.

On those asking for VE3FXT address, try Box 431, Cambridge, Ontario, Canada N1R 5W1. Some who have tried the old box recently have also had success, Box 551, have also received a H5FXT QSL. Either way, you should have a clear shot now but the new box number is probably the better try.

WEST COAST DX BULLETIN Published every week by the Marin County DX Group at 77 Coleman Drive, San Rafael, Calif. Second Class entry and postage paid at the San Rafael, California, Post Office.

Subscription rates and sample copies available on request. Frankly we are sending more copies down the dawn path to the Deserving DXers than we can comfortably handle.

<del>\*\*</del>

KhYT-Karl Renz Karl has been in a number of African stops and presently he is in East Africa. A week or so back he was in Nairobi and will be visiting a number of other countries in the next several weeks. A rough schedule will put him in—

7Q7 - June 26th 5H3 - July 14th 3B8 - July 29th 9J2 - July 1st 5R8 - July 21st C9M - July 7th FHØ - July 25th

Karl has been in a number of rare DX spots and trying to line up permission to operate has not always gone easily. Karl writes:

I did operate from ST2SA's for the seven days I was in Khartoum. But there was just not the time to be on the rig all day due to work problems.

In Mogadiscio in Somalia, I got a negative response to my query for permission to operate but was told to ask again in January. This came from the Acting Director of Telecommunications. He advised to speak to the Chief Engineer and if there is approval, the Director will sign the license. Unfortunately, the Chief Engineer was out of the country in Geneva while I was in Mogadiscio.

A Somalian working in a RTTY operation has applied for a license, this back in 1972 but was told to wait. He still is. This person knows both the Director of Telecommunications and the Chief Engineer and there may be some improvement for a possibility here. The relations between the U.S. and Somalia are improving and there is hope that the trend will continue.

Here in Nairobi I have been waiting for a 5Z4 call and will next be going to 9U5. No one is supposed to be QRV from 9U5 from what I hear hear. 9X5SP is enroute back to Washington and then will go to 9H1-Malta for two years. He reports that the 9X5s are temporarily QRT until new regulations are approved. The only 7Q7 currently legal is 7Q7LW, a British police official.

My own plans are to go to FROM after I go to Madagascar, maybe for a four day operation. I have written 5R8AL in Magascar, hoping that he is still there.

My brother, W2TK, will be flying to meet me in Mauritius. We will be looking at the 3B7/3B9s. Some others may come out to go with us. We hope that something in this area will develop and the hope is for a rear rare one.

73/ Karl KLYT

## MORE RED EYED LOUIE

Of all the pestilences dire, Including famine, flood and fire, By Satan and his imps rehearsed, Volunteer DX Policemen are the worst!!

(Revised to sooth some QSL Managers...who were really) (not the ones in mind.....two week back

### CALENDAR

IRAQ July 8th if everything falls into place WALVIS BAY Two days on twenty SSB.....July 3rd and 4th MELLISH REEF VKs and friends from August 27th for about a week PY1RO will be there....July 21st to 23rd. It's coming! St PETER & PAUL JAs on the 1978 Great Ogasawara DXpedition....June 26th to 30th **OGASAWARA** WALDRU there this weekend signing VP5AH for a week TURKS & CAICOS BELIZE VP1s all over the band...July 28th to 31st Alex having problems with gear. Questionable at this time St BRANDON FØCH/FC by HB9TL from Jul 16th to 31st CORSICA EA3WZ signing C31MK from July 30th. PA-groups from Jul 15-Aug 18th ANDORRA TF6M on all bands July 20-23rd. GMs there from Jul 23rd to Aug 5th ICELAND NAVASSA November over the CQ WW CW Test ... November 26th to Dec 4th CHATHAM ZLs there over the CQ WW Phone Test last weekend in October SAO THOME DLCBS there in S9 for several months starting in July GMs in OY-land July 18-21st. OZs for VHF/UHF Jun 28th to Jul 26th N6NB looking to trap a tropo. Looking for UHF records. Be Prepared! FAROES PACIFIC VHF/UHF ALAND DJ6SI there for a month from July 15th MONACO DK8AG and DK7AH there for a month from July 22nd. All bands. NORTHWEST DX MEET Downtown Portland at the Sheraton. Aug 5/6th. W7KSA for info Downtown Tyson's Corners...nr Washington. Sept 16/17th. KLFT for info Downtown Houston ... Aug 5/6th. K5RC for all the details TEXAS DX/CONTEST 1978 GREAT JA TOUR K6SSJ and W6FOJ will take you to downton Tokyo and other DX spots. November 3rd to 18th. Write for details...gruup filling up VENEZUELAN PHONE This weekend.....July 1st and 2nd RADIOSPORT Check this one out....July 8th and 9th. You may find some surprises.

There were even two BY stations reported during the last week but the activity level there is expected to continue low. OH2EM/BY was reported active on twenty meters, this one saying he was in the Finnish Embassy there in Peking and expected his own license any day now. BY1AA was worked in the Western Reaches on June 14th. This one at 14062kc at 0315Z. Both said that they were true-blue and not Slim at all.

at 14062kc at 03152. Both said that they were true-blue and not Slim at all.

ARRL Senator Barry Gold ter's bill on RFT, S-864, had a hearing a woor so back. The FCC is lukewarm on the subject. Senator Goldwater noted to the FCC's representatives that back in 1974 they said they were 'jawboning' the subject with the manufacturers.

The Department of Commerce came on strong for the RFI legislation. Harry Dannals was there to present the ARRL position in support of the RFI legislation and there was also support from other groups. On the other hand, there were also some who saw little need for the legislation. The FCC said a Notice of Inquiry was being prepared but the position of the FCC at this time is neither for nor against the legislation.

THATLAND Some weeks back you will recall that the FCC said that communications with Thailand was not a good idea as the HS-stations were on the banned list. There was some confusion over the release and the HS stations continued to be heard. Recent word out of downtown Bangkok indicates that they are about as confused over the matter as you are.

The report is that there is puzzlement in Bangkok over why the FCC issued their statement, sources in Thailand saying that there has no no instructions sent to the ITU since Thailand took itself off the banned list back in 1969. The Director General of the PTT in Thailand is HS1SS. And the HS stations continue to be heard.

Actually, even more are being heard. Fred Laun, K3ZO, is now in Bangkok and signing HS1ABD. Chester, who once signed XV5AC, is also a recent arrival in Bangkok and Chester will be signing HS1ATV. HS1ABD QSLs to K3EST.

WEST COAST DX BULLETIN . Published every week by the Marin County DX Group. One of the local QRPers came up the hill last week and as soon as we saw him hopping from foot to foot in exasperation, we know something had happened. "Sometimes I wonder about people," the QRPer said, "and especially those who are always there when you don't need 'em." We had to ponder all of this awhile for often there are things not easily understood where QRPers are concerned. "What happened this time?" we asked and that simple query got us the full story. "I was down at the green grocers," the QRPer said, "doing a check of the melon crop. I am sure that you know the way to determine if a cantaloupe is ripe is to shake it. If it is ripe you can hear the seeds slosh around inside. You understand that don't you?" We were cautious at this point and we nodded our head without saying a word. "Well," the QRPer convinued, "there I was shaking the melons and early in the season you come across a lot of green ones. All the little old ladies were standing around and watching me. Seems that they wanted ripe melons but did not know how to pick them out. So I was shaking and the old girls were listening and everything was going well. Then some wanted to check the watermelons and I had to show them how you check the blossom end with a fingernail. When the watermelon is ripe, your thumbnail will penetrate the skin with a crisp snap. A green one and you can't even make a dent. If it is overripe, you might lose the whole thumb into the melon. But a nice crisp snap and you will have a good watermelon." All of this was news to us and we were just sitting and nodding our head as though we knew this all the time but inwardly we were already planning our next reconnaissance of the vegetable stands. "What happened?" we asked and the QRPer sighed. "One of those local DX Policemen showed up and started to get things organized. He took over, make a list of those who wanted canteloupes and those who wanted watermelons. Each was assigned a number to show their place on the list and he then set up a schedule for the times we could work the watermelon stand and the times for the canteloupe stand. Then he was not satisified and divided the lists up again for those going through the 'Express' check-out line and those going the regular, slow route. Soon all we had was a mob of people trying to get to the melons and the Policeman driving them back to wait their turn. And hardly anyone was doing any shaking or pinching except one old geezer from Mill Valley who kept saying to the melon he was shaking. 'Was my report five by nine? Five by nine? Local QRM is taking you out.' Heck! we were all organized for going nowheres. Nowheres!" Son of a Gun, we had to nod our head in sympathy for we have often noted the dangers of over-organization and under-utilization when the regimenters step in. You're better off shaking your own cateloupe and the next time at the supermarket, do it yourself! Shake your own canteloupe!! Pinch your own watermelon!! And all the shaking DX news will come down the pike sooner or later. Shake if you must the golden canteloupe but you will have to write to find our subscriptions rates for 2500 a week are enough! That!
