11-68

DOMINICA DXpedition to Dominica by W4USQ and W4MTU postponed due to death of W4MTU.
One report that trip may come off on July 26th operating VP2DC for one week.
(K6CWS-K6COF-W6HVN)

DAITO Is. The KD6AA operation was to take place from Daito Island, 500 or 600 miles from Saipan and might count for a new country.

PAPUA VK9DJ has returned to the air after being gone for about eight months. Name is Graham and says he will be on rather regularly around 1200-1300Z, 14210kc.

EAST MALAYSIA 9M8RY another Pacific Station coming through around 1300Z at 14210kc.
Handle is Yong and QSL via WB6LED. (W6ZC)

HONGKONG VS6AA, Maurice, coming in at 14022kc at 1430Z on June 30th.

MACAO CR9AK reported at 21350kc and at 14190kc, on twenty the time was 1315Z. Strong signal reported for the 20 meter operation. (K6COF)

EASTERN CAROLINES KC6CQ still a good bet from 0700Z onward and as late as 1300Z.
Usual frequency is around 14230-14235kc. QSL information in 6-68. (WA6JDT)

SENEGAL Several stations reported. 6W8DQ at 14200kc on July 2nd, Handle 'Poppy' at 0030. 6W8AL, Jean, at 21298kc at 0040Z. 6W8DY continues to schedule VE4SK Saturdays and Sundays at 1730Z at 21240kc.

DON MILLER No more additional information but good verification that previous reports in this bulletin were correct. Something should be released during July on the settlement.

SHIRBS(?) ISLAND W4DXU/FPI on 14036 on the 4th of July. Anyone have anything definite on this one. (K6COF)

TUNISIA The Radio Club de Bois-Colombes, F50J, will operate from Djerba Island, Tunisia from August 1st to 30th with the call 3V8AA. An SB 101 will be the rig, crystal controlled, with a VFO for reception. Present crystal frequencies are 14225, 21225 and 28725,c. QSLs to F50J.

YL SSB SYSTEM On one recent day they had the following check-ins. CN8GE, VP2SY, 5A2TR, JX6RL, CR4AJ, VP1FR. Try 14332kc from 1600 onward. (WA6JDT)

Last week's bulletin had ZE2YP for the Revilla Gigedo operation. Most might have realized that it should have been XE2YP---Mexico not Southern Rhodesia. Just proves again you should not proof read your own writings.

REUNION FR42S at 14490kc and listening 14200-14210kc at 1515Z. Handle is Michele.
QSL to Box 130, St. Peter, Reunion Is.

CROZET FB8WW at 14041 at 1145Z. With all the reports of DX being worked 1100-1300,
it seems that the early riser has some chances at some very good DX. (WA6IVM)

ANTIGUA VP2AZ on July 11-14th, 14270-14280kc transceive starting 0300 or slightly
later. (LIDXA)

AVES IS YVØX reported at 14025kc or slightly higher at 1200Z. QSL to Box 2285,
Caracas. (LIDXA)

QUICK NOTES VR6TC still keeping his schedules Tuesday at 2100Z at 21350kc and at
14225kc at 0600Z on Wednesdays. KW6EJ will be in California for a visit during
July and August and then back to Wake for another year. KC6CQ is looking for
some 15 meter operation when he receives a shipment of co-ax from Guam to hook
up the 15 meter element of his quad. TJJAL being heard around 2400Z at 14197kc,
handle is Jerry and QSL via W2MES. VK9XI on Christmas Is. around 14215kc at
1400Z and don't neglect the VK9s on Willis, Nauru and Papua on around 1100Z to
1300Z.

CRETE SVØWN apparently the only station now operating on Crete. Heard around 21308kc
at 1530Z. (VE-DX)

MORE MACAO Herb, VS6AD, will put CR9AK on the air August 2nd thru 5th operating at
14190kc and listening higher. QSL via VS6 Bureau. (VE-DX)

73,

WA6AUD

WEST COAST DX BULLETIN With the editor operating portable with a pack on his back
during the last week in the High Sierra, it was pointed out that this was proof that
DX could get along without him. But can you get along without the WEST COAST DX
BULLETIN. Special offer of 6 months for \$3.00 until July 31st. Hasten.
