36-69

FORMOSA BVIUSD reported as active as of August 31st. Working more c.w. than SSB.

Has been found around 14270kc....reports fragmentary at this time.

- THAILAND Late word from the South East Asia Desk indicates that the amateurs in HS-land are holding their breath in anticipation that a reciprocal agreement will be signed at any time. All foreign nationals are off the air for the time being and only HSICB is active. Other HS stations monitoring Chankij for information on developments at the Embassy level. Possibility of four district zones within Thailand and that foreign nationals will be signing their home calls /HS. The Southeast Asia Net at 14320kc, 1200Z daily might be a spot to watch for late information...that, plus a lot of operations from Thailand breaking the present silence.
- Rumors persisting of possible operations from this area by XT2AA. During the last week a list was being taken for possible operations Monday and Tuesday of this week with the call-sign to be used being XT2AA. The frequency being given for the operation is 21280kc from 1730Z. Inasmuch as Jacques is not facile with the English language, persistent breakers who do not follow the directions for the operation may result in having no operation at all. Jacques on other occasions has gone QRT when breaker/QRM made operations difficult.
- CQ/SSB AWARD A decision has been made by CQ magazine not to discontinue the CQ SSB DX Award which was due to be dropped as of October 1st. The announcement made a few months back brought considerable mail asking that it be continued. The rules are essentially the same as DXCC except that separate certificates are given for 100, 200 and 300 countries.
- PORTUGUESE GUINEA CTIFL will be going to Portuguese Guinea this coming January and will be operating with the call CR3FL. CR3KD, Pardal, who has been on leave during the recent months, is expected to be active after October 1st. The beam antenna acquired just before his vacation is expected to improve his signal.
- KURE ISLAND Operations are scheduled for November 10-14th. KH6GKV is going to head the effort and the call will be KH6NR/Kure. Transmitting frequencies are given only for twenty/fifteen. Transmitting on 14230/listening 14240kc.

 On fifteen it will be 21295, listening 21305kc. QSL to 530 Peltier Ave, Honolulu, Hawaii 96818. Also on the effort are K5LTH and others. No funds solicited and anything received will be used for QSLing expense. s.a.s.e or s.a.e with 2 IRCs required. No QSLs should go to Kure Island. No 80/40 or lOm operations planned. No lists...no mcs. However, they would like the loan of another rig to augment the operations...loan only.
- GUERNSEY DJIQP will operate as GC5AET Sept 13/14th during the WAE DK Contest using SSB only. Then will operate thru October 6th on all bands, using both c.w. and SSB....with emphasis on the 5BDXCC effort. 10 meters will be worked when the band is open and consideration will be given to the sub-bands within the U.S. bands. QSL direct to DJIQP without s.a.s.e. or s.a.e. but with sufficient IRCs. If you are still aching for a GC5AET QSL for the 1968 effort, DJIQP asks that you try again.

CALENDAR

WAE-Phone September 13-14th

TT8 Nid-Sept operation by 5A3TX

Kermedec New operation due in mid month (October

OD5 Contest October 4-12th

Lord Howe Is. VK2BKM...all band effort October 16-30th

Caribbean VE3EUU St. Kitts/St. Lucia/St. Martin operations opening Oct 17th

VK/ZL Contest Phone October 4/5

C.W. October 11/12

RSGB 28mc October 11/12

- SPANISH SAHARA EAGER still in there. One late report says that IIKFB no longer making lists for the operation. Also, Angel has been having some power problems but seems to have them licked. Reported operating time and frequencies are: 21350kc at 2000Z, moving to 14250kc at 2100Z. Some changes apparently going on so move around if you do not hear EAGER on these exact frequencies.
- WIRELESS INSTITUTE OF AUSTRALIA Met in Melbourne a week ago and among the topics discussed was the matter of DXpeditions soliciting funds with considerable sentiment against such practices on the basis that this destroys the mateur status. Also, some thought that there would be lessened pressure if there were no DXCC Honor Roll, no publication of total countries worked, etc.
- FRANZ JOSEF The latest rumor is that the planned operations probably will take place in March or April of next year.
- REVILLA GIGEDO There was 75/40m activity from XF4 last week with XEIPJL/XF4 at 7005kc at 0300Z on September 2nd, moving to 3505kc about a half hour later. QSL information was to route them via XELJ. No word of any operations on other bands.
- GALAPAGOS HC8FN at 7225kc at 0900Z on Aug 31st.
- CHINA BY5BB in the JARL All-Asia Contest. Worked about 10 stations and went QRT. Was at 14025kc at 1300Z on August 30th.
- PACIFIC DX NET 14265kc at 0700Z on Tuesdays and Fridays..(Mondays and Thursdays local time in most instances). Recent check-ins on the Net were EASAT, KC6BY, DL7MX/OHØ, WA44MO/kc6, VK9KS and VR3C. Usually quite a bit more than these samples.
- ARRL BOARD OF DIRECTORS MEETING Scheduled for November 1st in Newington. While this is a special meeting, just about anything can be introduced for the agenda. At this time it would be proper for clubs or individuals to consider proposals that they would like to present to their ARRL Division Director. In spite of some confusion at times, the ARRL Directors do set the policy for the League. Make your feelings known.
- OSL MANAGERS DIRECTORY Still a bargain and often the cheapest way to QSLing. The new edition is out and \$3.00 will bring you the directory plus the quarterly supplements for a year. Send \$3.00 to Dept WCB. Bx 54222. Terminal Annex, Los Angeles, Calif. 90054 and gain a valuable tool. European stations can obtain the directory from Geoff Watts DX-NewsSheet, 62 Belmore Road, Norwich. NOR-72T, England for one pound sterling plus 3 IRCs.

REPORTS FROM RED-EXED LOUIE...the Watcher of the Lonely Night. e=east; m=mid-west; w=west coast; kh=hawaii, etc, etc.

- With a goal of achieving 10,000 QSOs during the contest. Operators will include K9RHN, W9ZRX, W9ZTD, K4MZU, W9POK, W2JAE, K4BAI, WA5GFS. Operations are planned for 160m thru 10m and a 40m beam is expected to threaten a new record for than band. Some operations might precede the actual contest signing PJOMM or PJ8DZ.
- ORKNEYS/FALKLANDS Eric Chilvers, QSL manager for a good many operations, has proposed the following frequencies for 3.5/7mc operations. VP8KO-South Orkneys September 18th, 7005kc at 0915Z and 3505kc at 0930Z. VP8FL-Falklands on September 19th same frequencies and times. Especial attention to Ws trying to improve their 5BDXCC status.
- QSL INFORMATION Speaking of Eric Chilvers, he is QSL manager for MP4TCE, VP8FL in the Falklands, VP8KO, VP8JH and VP8JQ in the South Orkneys, VP8KQ, VP8JI, VP8JG, VP8JW and VP8KN in Antarctica. QSL to 1 Grove Rd, Lydney, Glos. England. Also handling a number of stations if Frank Turek, DL7FT, who is the manager for EA6AR, EA6AS, EA6BG, EA6BH, F9UC/FC, HBØLL, OY2A, TU2AY, TU2AZ, TU2BB, 3A2CN, 3A2EE, 3AØCU and 3V8BZ. Also, Frank is the route for KL7EBK, KR6JT, KZ5EK and W4UAF/KH6.
- San MARINO MlB, Mario, on fifteen meters last week. Reported on September 2nd and 3rd around 21340kc from 1630Z to 1730Z. QSL to Bx 48, San Marino.
- MARTINIQUE FM7WE reported at 28635kc from 2030Z .. QSL to CBA. Also reported at 28770kc at 1800Z. FM7WQ, Pierre, is active again and schedules W40PM at 21 390kc at 1700Z. Joe, who handles the QSLs, will note a courteous break.

73, WA 6AUD

WEST COAST DX BULLETIN Published every week by the Marin County DX Group. Of each it has been said...."..hot in burning love, humble in conversation, a well of flowing doctrine, a pit in deepness of science, and well-smelling in sweetness of fame". Certainly a humble group. Learn of our humility....\$7.00 for a full year
