WEST COAST DX BUILDTIN-- SPECIAL DX ADVICE

Word relayed from African sources indicates that Gus lost about 150 gallons of gasoline for the generator. Enroute Sunday to Comoro to obtain fuel and will be gone about four days from Geyser Reef. Intends to return-look for Gus towards the end of the week...possibly Thursday onwards.

KZIKT expects to receive VU4-Laccadives license about June 25th. Possible operation from VU4 shortly thereafter.

WEST COAST DX BULLETIN

Bulletin

June 23, 1970

25-70

- Gus finally got off Comoro last week-end, arrived off Geyser Reef in mid-week and was on the air last Thursday. Weather conditions not the best and Gus a bit doubtful at times about sticking on the reef. Was coming through to the West Coast Friday with not especially strong signal but was worked on both c.w. and SSB on 15m by some who could read him. Expected to be there through the week-end....possibly four or five days of operation. Some indications that Gus may try 14170kc on 20m to avoid interference on the lower frequency. The call sign being used is ACØA/GR.

  On that prefix, in spite of the use of AC-prefixes in other areas, the AAA-ALZ portion of the prefix allocations is for the United States. The ARRL Country
- GIBRALTAR ZB24 is on week-ends, scheduling WB9BWU at 0200Z around 14210kc. On June 13th was being worked at 14201kc at 0045 and on June 15th was at 14215kc at 0300Z. The list does not appear to be made in advance but is worked as indicated above. Gordon, ZB21, looking for stations in the Western Reaches.

list shows this as Bhutan but this is unofficial...the AC-Bhutan that is.

- COCOS ISLAND AX9KY working hard on WAS and is looking for Delaware, Vermont, Oklahoma, Nevada, Vyoming, Missouri, North Dakota and Nebraska. Ken will be on 14250kc Thursdays at 1200Z and Saturdays at 1300Z. He will be leaving Cocos in about two months. OSL to VK2SG.
- JORDAN JY1 reported as being active during the middle of last week. Some JY1 QSLs arriving via the QSL Bureaus. Apparently the ones that work King Huessein will get a QSL direct, those working visitors probably will get theirs via the bureaus. Wayne Green, W2NSD/1, trying to get copies of the logs for his operation so that Wayne might handle the QSLing himself. Nothing expected on this in the way of an answer for a week or so.
- ALBANIA DL7FT, Frank, reported as having the visa for entry into Albania and August is a possible date. The OH-Group aiming for July. DL7FT should have his plans rather well defined by this time in July. Assistance still being needed and any help can be sent via W6KNH.
- CLIPPERTON No new developments of any significance on the FØNH/FO8 planning.
- AFRICAN DESK 5VZDB, Gus, will be leaving Togo soon and plans a brief operation from TY-Dahomey. Also looking at this one is 5VZWT, Andre, who possibly will go to Dahomey in August, this being tentative and depending on Andre obtaining the necessary license. TT8AF was on the African DX Net for the last time on June 14th and should be signing F2HF now. Also reported is that Gus, 5VZDB, will operate from TT8-Chad in September. The African DX Net at 14290kc from 0500Z on Sundays still continues to gather much of the rare Africans with W4SPX working hard as m.c. to keep order. TR8DG also often in there. Lists for the Sunday operation usually made up on Saturdays...same time and frequency. This is Saturday and Sunday GMT.....Fridays and Saturdays here in the States.
- WALLIS FW8BO, Tom, operated briefly last week, going ORT on Saturday. This is FK8BO and the FW8-Wallis can be OSLed to Tom Sevelli, Bx 28, Noumea, New Caledonia

## CALENDAR

GUS Operating from Geyser Reef--AGØA/GR last week-end. Should be there

through most of this week.

MARCUS Jul 248...signing KAlB.

MANIHIKI May happen one of these days....the suspense is terrific. ALBANIA OH-Group to test possibility in July....DL7FT in August. DXXXPAR July 3-5th. Had strong signal in the June operation.

YV-Contest July 4-5th
HK-Contest July 18-19th
Bermuda - C.W. July 18-19th

SUDAN The efforts of WASREU, K6K, and others. ..plus consistent activity by ST2SA himself....has brought things to the point where there are sufficient funds for a Heath HW-100 which has been ordered and will be shipped to Sid as 'Amateur Radio Educational Kit--Not For Commercial Use". This is hoped to get them past the Sudan customs.

I tri-band beam has been contributed by K4NZU and this along with the necessary co-ax has been shipped. The off-set tuning for the HW-100 was not installed in the U.S. as this presented some problems unless the whole kit was assembled. If all goes well, Sid should be on SSB sometime this Fall with a rather strong signal. Initally, plans are being made to assist him through the pile-ups until the pressure dwindles.

## FORTY/EIGHTY DESK (With things the way they are, better prepare)

SHORTLY NOTED: K6RA has taken on the QSL duties for 9Y4EW while WA5TEV has taken over the duties for ZD5X in Swaziland. Both request s.a.s.e..etc. ZD5X will forward logs once a month. The Flordia Hams managed to scuttle legislation which would have included CBers with Amateurs for call-sign license plates. Be pfepared. This will pop up in other states for sure. WABRB has the Florida details should anyone need guidance for a successful campaign. XELFFC in the 40m reports is running two (2) watts input. ZC4BX has been showing up every evening..almost... at 21006kc around 2230Z.....OSL to Bx 216, Famagusta. FM7WF is on vacation and will not keep the schedule with W4OPM for some weeks .... will be back late in July. OSL information needed for FG7TI/FS7 which was active in a recent CQ Contest. .lso looking for information for KS4CC....not what was good three or four years back but what might produce a card now. Also needed is information for VO8CZ and VP8HO. Twenty meters is still plagued by Intruders...Radio Peking and spurious A3 signals. Such noted at 14100/14160/14165/14230/14231/14240/14260 and 14265kc by Intruder Watch recently. Join the group if you want to help clean things up. ZL3GQ, Peter, has sent in his 5BDXCC application. The Southern California DX Club would like you to know that their members hold 3 (three) 5BDMCC. We 14/K6KA, No. 15/W6NJU and No.??/W6. W6.M has the 500 worked whi situation...500 worked/471 confirmed. W6JKR lacks but two on 80m for his 500.

PHONE BANDS At the May ARRL Board of Directors meeting, the Planning Committee recommended that no action be taken at this time to expand the phone bands now available to the U.S. amateurs.

However, at this time there are 10 petitions before the FCC calling for the expansion of phone bands. John Griggs, W6KW, Southwestern Division ARRL Director, has directed a letter to ARRL President Robert Denniston, WØDX, calling his attention to the possibility that the FCC may consider these petitions and this would find the ARRL...'...late and way out of contact with the membership'. W6KW has called on President Denniston to hold a special Board Meeting at the Boston ARRL National Convention in September so that the ARRL can establish a position for filing with the FCC on these expanded-phone petitions. Director Griggs also calls for a national referendum through QST to learn the opinion of the membership in this matter. Anyone with a feeling in this matter might consider that this would be an opportune time to express the feeling to his Director.

FURNY FARM TM2BT, 14245kc at 0210% on June 14th. Said he was in Singapore. Beam heading from the East Coast was NE. 3L2A on Hudson Rock was at 14042kc on June 13th at 0230. This prefix is assigned to China. XG4A was on during the week-end of June 13-14th. Said he was 400 miles west of Baja California. Son of a gun....some weeks one could almost made DXCC with these weirdies. That 3L2A said he was in the Marshall Group...QSL to ZL2ACI.

K2IXT Robert Gross, K2IXT, presently traveling in the Middle Mast is hoping for operations from Laccadives, the Nicobars and possibly Mepal and Sikkim. His travels are in a Volkswagan Minibus and he presently is in India. If anything develops on this the action probably would be in late June or early July. The frequency to watch would be 14195kc...any QSLs will go to K2MME.

WEST COAST DX BULLETIN Published every week by the Marin County DX Group. One of our local QRPers had a shattering experience recently. He was carefully tuning up his QRP linear by listening to the grunts from his 4-1000. The linear grunted too hard and literally spat the meters at the startled QRPer. Grunts, groans and smoke from burning insulation all over the place. Son of a gun. When a linear starts spitting meters, that's too much. \$7.00 for a too much year.
