## Bulletin

.....

November 3, 1970

43-70

SUDAN A report from the African Desk (East) is that ST2SA, Sid, has the HW-100 assembled and is on the air..transceive. No frequencies given but low end of twenty phone from 1400Z might be the time and place to watch.

GUERNSEY WA2MEQ will operate from G5ANX commencing November 2nd and running until November 14th. Lou will work all bands but main effort will concentrate on 14020kc, 14075kc, 14220kc and 14340kc. Similar arrangements on frequencies will be followed on fifteen meters. The rig will be a HW-100 with a tri-band quad at 65 feet.

QSLs go to WA2MEQ CBA or to Lou Wilson, G5ANX, Bx 575, 2130th Comm Sqdn APO 09378, New York. Possible that Lou will set up permanently on Guernsey sometime late in 1971.

CAMPBELL ISLAND Activity from Campbell developed last week but the reports so far are only for 40/80 efforts. Activity was reported for October 26th at 3595kc/0950Z and at 7022kc at 0820Z on October 28th.

The name of the operator was Lin and his code speed was very slow. Possibly an inexperienced operator and did not appear to be familiar with amateur call sign prefixes and suffixes. On October 28th worked only a few stations and went QRT. Was signing ZL4OL/A and did not use the ZM-prefix as expected. QSL via ZL2GX.

NORHBAY ISLAND LZ4NG. says his name is Franz and booming in at 14023kc or 14337kc. Cheerfully gives his location.....North of Cocos/TI9 and South of Clipperton/FO8. Said to QSL to WA5UHR. WA5UHR indicates that he has received log information over the air but no logs....the radio contact being his only knowledge of the individual. Very strong signal into 6-land...was being worked last week. Somehow, this one does not seem just right! Also being passed off as a Danish QTH. Incidentally, Slim, 8X8AA from Cray Island was being heard last week...again.

CONTEST Some rather exotic calls were being heard in the CW WW Test a week ago and some of the locations of the calls....or the QSL information is as follows:

CE9AZ	South Shetlands..via CE3RR	VP9DX	To W3KT for contest effort.
CW4AR	Uruguay...via CX4AR	MLI	To ILBNZ
HC8GS	To W5GTW	YP2HA	Same as YU2HA
HCN5JB	Said he was new op in Eucador. 4BLAE	Mexico	XELIE
HH9DL	W6WLH	4M4CDK	Venezuela..via YV-Bureau
HQ2GK	Hondouras	5LIB	Liberia
FP01M	To W2KBE	5J3CC	Colombia
PJ9AF	To W3KMV	9I6XZ	9J2-special prefix..this to
PJ8AR	To W3HNK	WA0ZZT	
VP2EE	Anguilla - to W9ZRX	W7UXP/Kure	To KH6HCM
VP2KX	To W2MS		
VP2VY	To W3HNK		

TRUCIAL OMAN It has been reported that phone privileges for MP4Ts were suspended in October and all activity will be on c.w. from now on.

There is a reluctance to list many contest reports as it is felt that contests are not normal activities on which expectations can be based. However, for those who wish the information for possible planning/schedules, the following stations were also reported in the CQ Contest:

80m. AX6DH, CN8HD, CO2PA, EA4LH, GW6NWV, HB9ALM, KG4CS, PZLAH, TTØRC, VP2EE, YU3OV, ZS6DW, 6Y5GB, 1K6RS, YS1RB, KZ5JC, YN1ZZ.

40m. HCN5JB, KC4AAE, PJ9AF, ZS4RN, 4BLAE, YNLAA, ZLLAGO, KH6GLU, 5J3CC.

SHORTLY NOTED Those who made DXpeditions for the CQ WW Contest have generally been praised for the efforts...in fact there were no gripes. Special compliments have been voiced for the SoCalifornia HH9DL effort; for the HC8AA effort; the W7UXP-Kure effort; VPIWMU from British Honduras; VP2EE from Anguilla; PJ1AA, PJ8AR, PJ9AF plus a few more PJs. The VP9DX Bermuda effort...and all the DX Club efforts. The AX2APX--Lord Howe activity which came through with a fine signal.....and those that we might have missed. Certainly it was a week-end for DX. As Lord Baden-Powell says: "Be Prepared...for the CW Weekend". Incidentally, the AX2/Lord Howe group went QRT October 28th. One happy contester reported working 41 countries/17 zones in 77 QSOs on 75m during the contest. EG7XL, often the best possibility for a Guadeloupe contact, is presently in France signing F3XL. WA5UHR reports that all the QSLs for ZMLBN/A Snares Island have been sent out. Efforts to contact CE3ZN recently have not proven out and there is some concern. Also some doubt that there will be any CEØ-San Felix or Juan Fernandes activity this Fall. K6AQV made 348 consecutive QSOs with F8ZF but the daily schedule was broken when Eric ended up in the hospital for some work on his running system...a new hip joint. Eric's address for those who might wish to drop a card is Eric Early, F8ZF, Clinique Saint George, 2 Avenue de Rimiez, 06 Nice, France. ST2SA looking for QSLs..especially W6/7s for his LP contacts. If sent to K6KA before November 13th, will receive early reply...after that they will be delayed until K6KA returns from a South American trip in January. K6KA, by the way, had articles in HAM RADIO and the ORIENTAL HAM MAGAZINE this month.

SULBM definitely a pirate. DXCC annual list will be in the January rather than the December issue. The Honor Roll will be in the December issue but will then be switched to the March/September issues with the big membership (DXCC) in the December issue. The thing has turned out to be a lot of work.

TANDERBURG REEF This is a reef 500 miles off the African Coast and is said to be claimed by South Africa. Some ZS stations said to be eyeing this as a possible area for operating around Christmas time....possibility of a new country should this jell as anticipated.

MONGOLIA VERON reports that UA9VH/JT1 will open up November 8th and will be active until the end of the month. Was being reported during October, however. Low edge of Twenty phone around 0200Z often the time.

CEYLON 4S7DA is often found at 14053kc, usually from 2345Z to 0200Z. He is looking for North Dakota and Wyoming to complete his WAS. Usually coming through with a strong signal.

Often there are other 4S7s around this time and frequency along with other Asiatic Russians, VUS etc being found...with the best time from 0000 to 0200Z.

K2IXP/ Larry has pretty well given up hopes for a VU4-Laccadiyes license but feels that his efforts, along with those of other VUS will eventually open the door for some operations there.

Larry still somewhat upset on what happened to him in Amman some months back when his head was split open by a over zealous commando, Larry figuring that his blonde hair marking him for a foreigner. After the incident he tried to see King Huessein but departed the following day without the audience, the situation making further stay in Jordan not advisable! Larry refutes any allegations of any provocation.

INX TO, W1MO, K2LGJ, WB2YQH, W2FXA, W3POE, W4BA, W4BRB, W4HU, W4OPM, W4UF, W5LZZ, K5ZJK, WA5UHR, W6AAO, K6AQV, W6BJI, K6EC, W6ESI, W6FZJ, K6HTM, WB6IXC, K6KA, K6LAE, W6MAV, K6MG, K6MHD, W6NJU, W6TSQ, K6UFT, WB6WHM, K6ZDL, WB6ZUC, W6JHV/7, W7PFZ, W8CT, K8RWL, K9ECO, WØJRN, WØYDB, KH6GQW, KH6LP.

WEST COAST DX BULLETIN Published every week by the Marin County DX Group. One of our local QRPers was standing on the corner of 14th and K Streets in Washington, D.C. one evening last week when two Middle East types diffidently approached and asked directions so they could see the White House. The QRPer grandly waved them down 14th Street, advising them to turn right on Pennsylvania Avenue.

"How come?", asked the puzzled companion of the QRPer. "This is only the second time you have been in Washington and you are passing yourself off as an expert to bewildered pilgrims".

"Nothing to it", was the modest reply. "Any QRPer who can get away with handing out DX information certainly is qualified to guide the lost ones in Washington". Son of a Gun.....QRP for Congress. \$7.00 for a full lost year.
