WEST COAST DX

Aull Etin

May 25, 1971 21-71

ALBANIA Well, the planning was good and everything went well for the OH-Group right up to the landing in Albania after the air trip from Stockholm. The only problem was that, according to reports filtering out, that they could not get permission to operate and the person who could give the go-ahead okay was apparently out of the country. As of the end of last week the OH-group was still there, trying to get some angle to get the permission but nothing working...as yet. Also reported was that the gear had been impounded.

As of early Saturday, it appeared that there would be some departures by the group from Albania. Should it appear possible that permission would be forthcoming, some would stay on to put ZA5Z on the air. OH2BH and OH5FE are scheduled for the Mali-1Z5A operation this Friday, May 28th and were expected to return to Finland this last week-end to prepare for that.

DL7FT, Frank, is due to open up in Albania on May 24th and his plans are to operate until June 7th. Frank will use the same call-sign ZA2RPS that was used a year ago. This one will include four operators and will concentrate on both CW and SSB as long as the bands are open.

Earlier this month DL7FT advised the WCDXB that if there were any last minute changes that he would advise. Up to Saturday, May 22nd, no word had been received and it must be presumed that this effort is a go. Watch for both operations......

The frequencies for the ZA2RPS operation that should be watched by the W/Ks are:

CW 14005kc and 21005kc(*/- 2kc) and listening 14050kc and 21050kc up SSB 14195kc or 14185kc (+/- 2 kc) and listening above 14250kc.
21245kc and listening from 21300kc up

Should ten meters open up, transceive will be used on that band and it will be 28030kc and 28620kc.

QSLs for this one will go direct to DL7FT.

MALI 125A is due to open May 28th....this Friday...and run for 50 hours. This is an operation with a few problems but the OH-group figure that it will go. Because of the problems they will be able to run only 150watts into a vertical antenna. ARRL is reported to have given the nod to this one for a new country. Aim your beam at Helsinki....but do not spend too much time trying to locate it on the map. Even should you find it, it will not be spelled Mali. Just jump in and work them.

MELLISH REEF This one is jelling with the vessel for the trip due to leave Tasmania last Saturday enroute to pick up Larry, K2IXP, and the rest of the group. The opening operation from Willis is still scheduled for around June 6th and then onto Mellish Reef. Present planning on the gear includes four (4) transceivers, three (3) beams, two (2) verticals and possibly one (1) pencil. At this stage, the game plan aims for 25 000 QSOs....the first 10 000 ought to come easily. On that one (1) pencil, if you believe that you will believe anything....they are going loaded with pencils. As Lord Baden-Powell, the Hero of Mafeking, would often say to us during those long nights on the veldt: "Be Prepared".

CALENDAR

ALBANIA The OH/ZA5Z group hanging in there hoping for operating permission.

DL7FT due to open May 24th for two weeks of operation....Pray!!

MALI IS. OH2BH & CLISSE for 50 hours starting May 28th ... New Country!!

MONACO DL4WJ/3AØ May 28th--30th.

WILLIS VK9NP/W warming up around June 6th for a few days.

MELLISH REEF VK9NP/M warming everything up a few days after the Willis Operation.

FERNANDO POO 3CØEG from June 14th by OH-Group

ANNOBON 3CMAN for 72 hours in Mid-June by OH Group...monitor the 3CMEG operation

for last minute prospects.

ZANZIBYR 5HILV possible in July....Garth has problems with questions asked over

the air.

MANIHIKI ZK1AJ should be opening up this week.

POSSIBLES AND AVAILABLE

TIMOR CR8AI showing up around 14210kc from 1500Z.

JORDAN 9K2AL going....may sign JY9AL. Has permission to operate

CWARDS VQ9SM skeds his QSL Manager JAOCUV/1 daily.....14232kc/1515Z. Tack will

help with contact if you give him a call.

PORT GUINEA CR3ND checking into the PACDXNET 14265kc. Says he will return often.

GABON TR8MR at 14218kc from 2300Z several times a week....no list.

CHAD. TT8AD at 14290kc/0400Z with W4SPX most nights.

DAHOMEY 5VZWT going to TY-land in July

GRAND BAHAMAS W4BRB/VP7 June 19th and 20th.....6&2 Meters only. Write for skeds & info.

BOUVET Norwegians still thinking of this and Peter I island

TRINIDADE PYØATG from June 14th....PYØRE there already.

RODRIGUEZ VR5DK, Darlene, figures to operate from 3B9 in July...if plans jell.

ZUQAR ET3ZU planning another Red Sea effort in August....a two to four day effort being planned for around August 24th. Possible that an U.S. amateur will accompany him and that the gear will be up-graded. Transportation part of the problem with daily cost of around \$300.00+ to have the vessel hang around. Some help at QSL time will be appreciated. ET3ZU/A QSLs being printed and will show picture of the lighthouse.

SHORTLY NOTED: Frankly, we are having a few problems. One is that either we are getting too windy or four pages are not enough to cover all the DX news. Six pages is a long haul, however, and results in a mailing around 10:00p.m. We have to start on Fridays and especially with ol' RED EYED....mail early and often!!

9X5AA, Leo, going QRT from Rwanda in mid-July for a return to the states. 9X5WJ, Jim, will be there for a few more months at the Embassy. EP2CC presently active with an INDXA rig may wipe out the entire Middle East (DX-wise). He gets around to some of the more exotic prefixes. AP2KS still being reported as looking at XU-Cambodia for a short operation. W1DPL showed up with the first reciprocal license to a U.S.national from 6Y5-Jamaica. VP2LG, Greg, will help with licenses for St. Lucia. W5PAQ making some inquiries to see if anyone interested in XF4 activity this Fall at contest time. Geoff Watts of the DX NEWS looking for issues No. 194, 196 and 197 of Gus' DXer. Lost out in the British Postal Strike and would wish to obtain missing copies. FR7ZL/E on Europa (Juan de Nova) QSLs to Guy P. de la Rhodiere, Lotissement Tanapin, Le Brule, St. Denis, Reunion Island. WA8VRB is QSL Mgr for all HR2GK QSOs. W1YRC is handling the action for VK9KS, 9M8FMF, 9M8FME, CT2BD, EP2TB and 601GB. Bob has sent out 4000+ QSLs for 9X5AA in last three years.

As of last Friday, W6KNH, Clyde, had cleaned up all the VU9KV QSLs on hand except for a few which cannot be reconciled with the logs...1839 QSLs mailed to date and any more will have to wait until W6KNH returns from a swing around the South Pacific. VU9KV still needing 6-land QSLs for the California Award. Next week we hope to clear up the sources of some of those strange calls heard in the ITU and Armed Firces Day action. OHOMA is an Asland Island Novice...xtal controlled at 21105 and 21085kc. 4N2HV QSLs for Solta Island showing up as well as a large volume of FR7ZU/Gs. WALARF/KS4 going QRT in July....been on since August 1970. WWV changes July 1st.

ZANZIBAR A letter from Garth, 5H3LV, updates the status on possible Zanzibar action in the near future.

Presently Garth is waiting on the INDXA HW-101 to replace the HW-100 which got waterlogged on the last effort. The HW-100 was overhauled when Garth was on leave at the home QTH in Canada but on return to Tazania the climate there caused the rapid deterioration of the rig to the point where it is no longer serviceable. Any operations by 5H3LV presently being heard are from the QTH of 5H3ML who will depart Tanzania in June.

Garth reports that there is growing problems there in Tanzania and questions on the possible Zanzibar operation may prove personally embarassing to him and especially so with a monitor sitting in a van down the street from his QTH and monitoring the transmissions. Questions regarding the country, the geography, activity from 5H1 or 5X5, or any such related matters can prove to be a most ticklish and sensitive items to answer. Garth is trying very hard to watch what he says and if the plans for the 5H1-Zanzibar operation develop he will pass along the information. Should Garth get on the air from Zanzibar, he will give nothing but reports and he will give no information as to his location. He would appreciate that no unnecessary questions be asked and especially ones which may jeopardize his own operations.

His present address is: Garth Hamilton, Oysterbay Box 23169, Dar es Salaam, Tanzania.

.73, WAGAUD

WEST COAST DX BULLETIN Published every week by the Marin County DX Group. One of our local QRPers picked up some hot information last week on the Albanian Crisis...and he reported it just as he heard it. "The problem is", the QRPer said excitedly, "that the ZA1SOB who can give them the operating permission is out of the country". After a pause, he added: "Say, I never heard that call-sign mentioned before". Son of a Gun, he is still wondering what fractured us. \$9.00 for a full year of obscure QRP jokes...\$10.50 by Airmail....that will confuse you faster!!!
