CHINA Some stations continue to show and stations in the Orient say that they look like they might really be there. JA stations report BYLAB showing up around 14250kc and working c.w. to their SSB. The beam headings looked right and the address being given is the same as reported here last week.....579B Tontienten, Peking 11. VS5CB says that BYLAA is been showing to regularly at 1200kc on 143.0kc....sticks around for an hour or so. 9M2WM report d working BYLAA at 14315ko/1240 on Jun 29th. Also reported that BYLAB is in Shangha.....BYLAB worked on the West Coast on July 8th....14215kc/1840Z. BYLAD has been reported on c.w. at 14200kc/1900Z several mornings last week. What to do? Well, first you work them. Then you QSL to the address given. Then

you keep your fingers crossed until the QSL shows up. Son of a Gun....work them if first and ask questions later. It alw. is is a possibility that they may be okay.

- BHUTAN AC5PN was still being reported last week.....rather consistent in his operating pattern. Usual operating territory is in the 14025kc--14040 c country and from 1400Z to 1500Z. Was at 14040kc on Jul 7th; at 14025kc on Jul 8th; and at 14034kc on Jul 14th. On July 8th the station was being worked by IAs and ZS stations....JAs were giving 579 reports while ZS's were giving 589. On the West Coast the signal was something like 239. QSO was very slow and apparently there was no call-book there as the AC5 would take a considerable part of the CSO in getting the address of the station being worked.
- EUROPA FR7AM/E being reported.....14165kc at 1430Z.....at 14224kc at 1240Z. Will be on Europa for a few months and QSLs to P.O. Box 178, St Denis, Remion.
- YEMEN 4W1AF continues to be reported.. the JA-Desk saying that they are hearing the station very good. Apparently only active on fifteen meters...21280kc from 1500Z. Has also been reported up as high as 21360kc.
- <u>OH-DX</u> <u>RING</u> OH2BH and OH2MM operated from Fernando Poo on the way home, stopping at Madrid enroute to Helsinki where they were due on July 11th. With the gear operating from 3C1EG it does appear that they got off the island with all the equipment and there was a report that there was some work done on the airstrip enabling them to lift off with the equipment. It is reported that they made over 7300 QSOs from Annobon. The operation ran into Saturday, July 10th, finally shutting down at 0530Z. The group has not washed out Mali but last week inquiry indicated that their plans were indefinite and they need a period at home for catching up with postponed tasks and pligations. However, the possibility of an operation there still good. This would count for a new country for DXCC.
- TIMOR CR8AG, Agiano, coming on the air Saturdays to work off a list. List is made up by CT2AK at 0400Z on Saturdays....14210kc. CR8AG comes on around 1000Z to scan the list....on July 11th was at 14205kc. Possibility of other stations joining to help with the operation.

MELLISH/ZANZIBAR Both of these operations are still on with 5H3LV looking for a possible August effort and VK4CGB/K2IXP/VK9NP apparently planning for a September effort for Mellish.

CALENDAR

ALDABRA CARIBBEAN CHINA EUROPA TRINIDADE	VQ9KL/A by Andre Saunderslate August. W4VPD presently working over the French islandsFMØ/FGØ etc. BY1AA and BY1AB being reported on 20 c.wsomething moking. FR7AM/E there for a couple of months. PYØ-Trinidade due to open about this timeseveral operators.
POSSIBLES TUNISIA ZANZIBAR MELLISH MALI	<pre>I1MOL plans 3V8 actic in August 5H3LV looking for and her Zanzibar effort in 3-4 weeks. Larry VK9NP/K2IXP planning for September. OH-DX group still have this one in mindneed to catch their breathe after Annobon and Fernando Poo.</pre>
BRITISH PHOENIX	KH6HCM has VRl licensohopes for something this Fall also Fanning and Canton possibilities.
LESSER ANTILLES	W7VRO & Co from 8P6/VP2L/and FMØ from Sept 6th.

20 Juny 71

MUSCAT MP4MBC will be active until September 13th...usually around 14200kc+ from 1700Z. The other active station in Muscat, MP4MBB is primarily on fifteen meters but with no especial time or frequency. MP4MBC also works fifteen at times but this varies and is not as consistent as his twenty meter operation,

KURE KH6EDY has been checking into the Confusion Net...21400kc at 0200Z+. The operator there on Kure is a General Class running a SWAN transceiver...one problem being that the operator not a DXer and the other is that he keeps no regular operating hours. The Confusion Net usually occuppied in running phone patches to the Pacific Islands....sometime patching some semi-rare DX through.

FORTY/EIGHTY DESK Prepare!!! The bottom of the cycle approaches.....slowly.

UW9AF says he often listens at 3805kc from 2300Z for signals.

SHORTLY NOTED ZK1MA has had problems wit! his power supply, this keeping him from the schedules with K6UFT. CB-license plate: were shot down in the Florida Legislature again for the second year...State Representative Rusty Sykes WN4QLG led the fight with Al Marcy W4ID, working hard in rallying the letter writing campaign. If that WN4QLG license holder looks familiar, its the son of W4BRB, Gene Sykes, the 6&2 mtrs DXer...among other things. W3USS is a station in the U.S.Senate...Pete the operator, QSLs to Bx 73, Washington, D.C. 20510. Works 15/20mtrs. RAEM was on twenty c.w. early in the month...still going strong. W4AQW going to the Orient in January...looking for licenses from Sarawak/Borneo/Timor/Macau etc,etc. 9M80EA on rather regularly will shortly QRT to return stateside. W4AQW is W4AG not W4AL.... our high-speed typist sometimes gets twisted....and we should have put that in a couple of lines back.

3805kc continues to be a happy hunting ground for 75mtr DX....from 0900Z. Darlene now starting 3B9DK operations at 1300Z.....Wed/Sat/Sun at 14285kc. Running low on action at times. Flora Christian, mother of VR6TC, passed away a few weeks back. VS9PJV was at 14023/0540Z on Jul 11th....said he was in Aden....how about that??

HARMONICS Just so the harmonics i	you will know to what you are listening to here are some of dentified by K6KA
14278.078kc	Particularly before 1400z, sign-off with Hawaiian music. A harmonic from Ambon, Indonesia.
14261.677	Voice of Free China on Taiwarsomeimes jammed.
14260.	Sometimes very distortedRadio Peking with friendly jammer on a harmonic from 7130kc.
14258.042	Harmonic from Radio Peking 7mc broadcast.
14240.058	Harmonic from BBC Johore, Malaysia.
14231.612	Radio Thailand harmonic.
14220.132	Radio Malaysia at Kuala Lumpur harmonic.
14200(approx)	A relay for Radio Moscowheard up to 1600Z.
14190	Radio Peking with program in Chinese.
14120	Radio Peking often distorted with a jammer.
14070	Radio Pekingwith a jammer distoring.

WEST COAST DX BULLETIN Published every week by the Marin County DX Group. One of our local QRPers....noted for his broad signals....showed up recently somewhat the worse for wear. Actually a bit tattered. Took some prodding to dig out the truth. Seems that some of the neighbors invited him over for a 'rap'session. Being in on all the current jargon and colloquialisms, showed as requested. Son of a Gun, it was not the sort of 'rap' session he envisioned. \$9.00 for weekly lessons on how to duck a right cross...\$10.50 brings your defense lessons by alr. When they want to 'rap' with you, Lesson No. 1 advises you to define your terms first. POW!!!!
