

GALAPAGOS HD8IG showed last week with an unusual prefix...will be there to the early part of this week. This is W3ABC and his plans for operating included 15/20/40mtrs.

NIUE Jim Henderson, WB6CZB/5W1AL/A35JH was stymied in his hopes to get to Minerva and settled for Niue. Last week he was signing ZK2DX and expected to be there until part of the present week.

QSLs for his operations go to WB5BHN.....which we have given a couple of times as WB5BHM incorrectly. Jim is a college student attending a college in New Mexico and paid out a good portion of his capital for air transportation out to the South Pacific hoping for Minerva. While he did not get all the way, he did come up with some good action.

SHORTLY NOTED The Arabian Knight Net is meeting at a changed time since July 1st. Look for them on Mondays 14290kc/1700Z; Thursdays at 21270kc/1400Z and Fridays at 14290kc from 0400Z. Venkat apparently hoping to return to Bhutan later this Fall and finish off some of the demand for A51. Anyone with information on the availability of TI9C QSLs...many still wanting. Some reports still cropping up on PY1DVG and Trinidad...some say this month, some say next month. Some say 160/80/40 mtrs. Timor was available with two stations earlier this month...CR8AI and CR8AK. Reports are that CR7IK is trying to bring CR8AK to the 14220kc country regularly around 1200Z and it does appear that this is jelling. QSL for CR8AK to CT1CY. A letter to a W5 from AP2AD says that all transmitting gear was confiscated last November and any AP2s presently being heard are possible Pakistani relatives of Slim on Cray Island.

WA5ZNY and K6AAD should be into their Caribbean swing by now....this week should see them in VP2V-British Virgins. 5H1LV, Garth, showed from Zanzibar last week, operated 36 hours and secured at 1500Z on July 10th. With little advance announcement on this one, many were inquiring as to just what 5H1LV was...QSL to K3RLY/ VA1SUN was a special prefix used at Sydney, Nova Scotia during the recent eclipse. 9K2AM was reported a week ago SSTV at 14230kc/2045Z.

Pete Smith, K4FOK, is on his way to Formosa with hopes for operating there. If the permission is granted, WB4SPG, Jim Simon, will handle the QSLing. W1YRC has the design for the XV5AC QSLs all worked out but cards are yet to be received from the printers. Logs for operations up to almost the middle of July have been received. XV5AC has gone well past the 5000 mark in QSOs to date. VK9JW after a bit over two days of operating had passed the 3000 QSO mark.

LU1ZA was on forty from the South Orkneys last week-end....7015kc/0600Z+. Alex, 3B8DA, on Mauritius, needs some PL-259 coax connectors and would appreciate anyone with some service spares to ship them...plainly marked "GIFT..NO COMMERCIAL VALUE. USED ITEM". Sandy, VK2BCV (ex-VK9GC) will be going to Norfolk in September for two months. 7X7G QSLs to Box 2, Algiers....VA8RA to VE8RA. C29=prefix will surface from time to time on special occasions from Nauru. C21TL was using it early this month. XU1AA was on last week and probably will show up from time to time on week-ends. The hopes for AVES-YVØ this summer are squashed. The amateur due to accompany a scientific survey in the area was replaced on the crew...still hoping but slowly fading. CR7IK says FB8ZZ speaks only French and because of this stays away from the American bands. It would seem that Darleen will not be the first HC-YL. There have been a number going back many years...Judy and Magdalena Cordovez are remembered by many Old Timers.

 (ka = japan etc. time in GMT # = long path ??? It's Slim on Cray Island again!!)

CALENDAR

MELLISH RFEF On right now....until mid-week. VK9JW with big signals...  
 NIUE ZK2DX by WB6CZB until 1st part of this week....  
 VIET NAM XV5AC on frequently.....  
 CORSICA F0AFV and F0AHY signing /FC late July  
 ANDORRA DJs and PAOs offering many stations now to end of month.

POSSIBLES For those who live in ever enduring hope for the rare ones, here is what may be heard in the coming months if the plans and yearnings are fulfilled....

BURMA 9M2IR and others trying to get some action out of XZ-land. Their track record for past accomplishments is superb. PREPARE!  
 KAMARAN VS9K looking good for September.  
 CLIPPERTON Still work going on for FO8C with November the target date. There are difficulties but there have been these in the past on other efforts that finally did jell and action developed.  
 SOUTH SANDWICH Reports of possible operations by VP8s later this year.  
 IRAQ Some JYs working on this one for possible action by early Fall. The key to the whole matter essentially political.  
 GUINEA Some trying to get permission to cross into 3X-Guinea from neighboring countries and operate.  
 SPRATLY Coming!! August or September looking good  
 FORMOSA A K4 enroute to Taiwan and hopes to operate an authorized BV-station

ANDORRA There is considerable activity developing from this one with a party of some 12 DJs (DJ9ES, DL2PU, DL6SZ etc) there until the middle of this week signing cw and ssb like mad. QSL to DL4LJ for this one...C31CD, C31FE, C31FH. C31FN will be signed until July 20th by PA0AJG, PA0HEG, PA0PMP with c.w. 5kc above band edge and SSB at or about 3785kc, 7085kc, 14200kc, 21300kc, 28550kc and these QSL to PA0PMP.  
 F9IE made a trip to C31 in June but conditions were not the best and Bernard could only make about 750 QSOs. To exemplify the conditions, Bernard said he could only work one (1) W6, that being W6TSQ, true-blue watcher of the lonely night. C31FK operated in late June-early July. These QSL to G3ZOQ.

QSLs On the KC4DX QSLs, they were promised by the printer by July 15th but this was changed to a delivery date of August 4th. They will be cleared up and in the mails within a week after delivery in Atlanta.  
 The St. Peter & Paul QSLs should be in the mails towards the end of July. V95JA logs should have just arrived at K3RLY and QSLs should surface in a week or two. I0IJ is handling QSLs for 7X7MD who was signing 7X7Y during July to celebrate Algerian Independence in 1962. 5H1LV also QSLs to K3RLY.  
 K6IC says that as far as he is concerned FP0BS is Slim on Cray Island and strictly a phoney. He suspects that 'Slim' checks the bands and nominates anyone with a good signal.

PITCAIRN VR6TC, Tom Christensen, is presently in New Zealand for medical attention to a leg that was injured some time ago. Some of the transmissions in recent months have indicated that Tom was having some physical problems, at times he stating that he was transmitting from a supine position.

The leg apparently was broken in an accident, the departure on July 5th was to enter a hospital in Auckland to have corrective surgery performed. It is not expected that he will return to Pitcairn for some months and VR6TC will probably be off the air until his return.

ROCKALL This rock, 280 miles off the Scottish Coast in the Atlantic, was recently the object of attention by the Royal Navy. A helicopter deposited a crew on the rock to construct a platform and install a navigational beacon. AP wirephotos were in many papers and indicated the problems facing anyone looking at the rock for a Field Day site.....wild waves and almost vertical sides.

MARCUS There presently is an active station on Marcus, K1. MI, being there on Minami Torishima. The operator got his license July 7th, was at 14273/0330Z on July 9th and QSLs via U.S. Coast Guard Loran Station-Marcus Island. FPO Seattle 93782.

WEST COAST DX BULLETIN Published every single agonizing week by the Marin County DX Group. One of the local QRPers came by last week-end, a mite upset. His DX idols were in shards. "They were taking a list for this DX station", he explained, the words indicating his troubled spirit, "And there was Mr. Big Gun...he right at about the top of the Honor Roll....and in there yelling to get on the list. What goes?". Son of a Gun, what can one say in these troubled times. Does one fret over how rocky the DX trail is or does one keep the eye on the goal? Or to quote the words of that eminent DXer, the Old Timer: "Breathes there a man with soul so dead. Who never to himself has said: 'I wonder where they are taking the list' ". They are all good but some's better. \$9.00 for a full year of unequivocal stating of DX facts...\$10.50 brings the DX platform by airmail. Get on our list and LIVE!!!!!!!!!!
