

Red Eyed Louie's

West Coast DX Bulletin

++
September 19, 1972 38-72

GUINEA 3X1P continued to show on 15 meters last week, mostly using a transmitting frequency around 21156kc and often listening up in the American phone band. Some contacts were made c.w. to GSB on or near the transmitting frequency at 21155kc. The hoped for twenty meter signal and the beam did not materialize during the last week, the report being that SMOCBZ was operating by himself and could not get the antenna up and operating. Operating time seems to be limited by the press of the duties there in Guinea and usually the station is QRT by 1800Z. For those seeking 3X1P, listen around 21155kc. Often a DX station will be heard calling the 3X1P. 3X1P frequently comes on the air to run some schedules and then starts listening for callers when the business is completed. Some of those searching for this one have reported as hearing the station on as early as 1100Z but most of the activity is generally some hours later..

BHUTAN A51PN has been showing regularly on twenty c.w., often appearing for several days in a row. His usual operating schedule would seem to start sometime after 1200Z and to continue to around 1500Z. Some on the West Coast have worked the station as late as 1500Z while a WA5 has caught Pradhan around 1430Z. QSLs should be directed to:

Pradhan
Post Office
Thimpu, BHUTAN

This should be sufficient and more detailed address with street and number or box number should not be needed.

MINAMI TORISHIMA KA1DX will be active from Minami Torishima (Marcus Island) during the CQ World Wide DX Test. Indications are that there will be activity during both the CQ Phone and CQ CW go-rounds. All bands are planned...10 thru 160 meters. And some schedules are being made for contacts on 160mtrs, 80 mtrs and 40 mtrs while on the island.

Transmitting frequencies will be:

1800kc 3557kc 7080kc 14195kc 21295kc 28595kc

The listening frequencies will be announced as the action progresses. The operating group in this effort will be KA2AA, KA2AS, KA2BL and KA2DX.

Also possible is contest activity by JD1ADG, a Japanese station on the island and frequently reported. KA1MI was reported as having new operating personnel for the Loran station on the island as of last July but no reports have surfaced since.

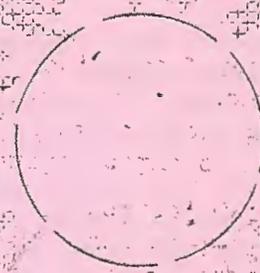

NORFOLK ISLAND VK2BCV/VK9 has been active on Norfolk for over a week with his usual operating time commencing around 0800Z. Handle is Sandy and will have 40/80 antennas up soon, possibly by this week. On September 9th he was at 14210kc/0830Z. QSLs go to the Golden Gate QSL Bureau, 71 Surrey St. San Francisco, Ca. 94131

NIUE ZK2BD, Brian, and ZD2AK, Alan, are both presently active on Niue with 50 watts to a dipole...and twenty meters only. Do not despair!. Both are expecting early arrival of FP-DX401s. The plans are to operate all bands. Last week Brian was still on the first page of his log. QSL via Radio station, Niue Island.

SUNSPOT LOUIE:

Only two small spots were visible in this observation made last Wednesday, these being about 7000 miles in diameter. The lower spot had appeared two day previously and the top one will have disappeared to the back side by about last Friday.

conditions have been changeable with some good openings into the Central Asia, Indian Ocean and south pacific. Red Eyed Louie in this week report is notable for the Deep Asian stations starting to show. As one of the more eminent DXers on the West Coast recently said: "where is the challenge when you can work DXCC on one band in the bottom of the sunspot cycle?" We thought this over a bit and said: "you didn't talk like that at the bottom of the last cycle when you were bucking for the 100 mark...now you are fat with 300 confirmed". As Albert would often say...."....all things are relative".

That VK0JV heard last week on 80mtrs is at Casey Base, Antarctica. VR1W will move to 80/40mtrs and TU2DO is almost daily around 7075kc from 0600Z. XV5AC should be on 40/80 before the CQ test. Ted was the operator on the CE6CA/0 effort last week... 5W1AU is often at 7090kc from 0700Z. His schedule only allows this one in three weeks...should not be heard again until the end of september.

SHORTLY NOTED XT2AF QSLs to VE2JH. On page 5 we got our VES mixed up...did some quick obliterating to correct it. XT2AF on most days at 14109kc/2200Z. Does not speak English but sometimes a list operation moves above the 14200kc edge. The NEDXCC Annual Dinner Meeting will be Saturday, October 7, 1972 at the Holiday Inn at Waltham, Massachusetts...right at the winter street exit from route 128. Joe Goggin, K9KNW, will be the guest speaker....Cocos/Serrana/San Felix, etc and W1YRC will show slides of XV and XU operations. K1KNQ has all the details. SV0WMM another station showing from Crete. Anyone with information on the CR9AK who was active in the All-Asia test. QSL information mostly. WB4LKG/KB6 is now VR1PA. JW1EE is QRT from Svalbard...now LA1EE. JT0AE is gone for about a month.

WA6MWG checked the september QST the other afternoon and came up with some figures on DXCC and Honor roll members. What call section works all the DX....look this over.

Country

Level	DX	W1	W2	W3	W4	W5	W6	W7	W8	W9	W0	Total
322	8	1	9	1	4	2	6	2	7	2	2	44
321	9	8	7	5	5	5	11	3	5	4	7	69
320	10	1	11	4	1	2	4	0	4	6	1	44
319	4	8	10	4	6	2	13	3	6	2	1	59
318	16	1	7	0	4	3	4	1	4	4	2	46
317	8	2	8	0	1	7	8	2	4	1	1	42
316	7	0	3	0	4	5	5	0	1	2	2	29
315	10	0	6	0	3	1	6	2	2	4	2	36
314	12	0	4	0	4	2	5	1	0	1	0	29
313	8	2	6	2	5	3	4	1	1	2	3	38
Total	92	23	71	16	37	33	66	15	34	28	21	436
Per 1000	.51	1.10	2.03	.74	.94	1.24	1.38	.73	1.15	1.04	.81	.92
Rank	11	5	1	9	7	3	2	10	4	6	8	

(Number per 1000 stations as shown on next to bottom line is based on 1971 figures for number of amateur radio stations)

TNX to W1AM, K1KNQ, K2BT, WA2BC K, W2FXA, WB2YQH, W4HU, W4NJF, W4LRN, W4TUC, W4UF, W5ALA, W5LZZ, W5PAQ, W5QBM, W5UBW, WA5UCT, WA5TUH, W6AAO, W6APW, K6AQV, W6BJI, WB6CZB, K6HTM, K6KA, W6KYA, K6LAE, K6LOM, WA6MWG, W6NUL, W6OL, W6PT, W6TSQ, W6TTS, K6TWT, K6UFT, WB6UJO, WB6UOM, K6WR, K6ZDL, W7PFZ, W7QK, W7TE, W8OA, K8RWL, W8ZCK, WA9JDT, W9DDL, W9DRL, W9EKD/4, W9JRN, W9YDB, K0ZXE, ACE, HL9UH, PA0TO, VE6AYU.

WEST COAST DX BULLETIN published every week by the Marin County DX Group. One of the local QRPers came by last week, feeling the usual sorrow for himself. "Everything I do goes wrong", he said in despair. "I figure to get ahead of the game with the bottom of the sunspot cycle coming and put up a twenty meter mono-bander. Then all the DX shows up on fifteen...even the 3X1P. What do I do wrong?". son of a gun, what could we tell him? so we towed the QRPper over to the old timer and ran the problem through again. "Tell me", the QRPper said. "Why does it always happen to me? Me! Who deserves better". The old timer thought for a while and then said: "sic friat crustulum". The QRPper looked at us and we looked at him. "What did he say?", the QRPper asked anxiously. We shrugged our shoulders. "Danged if we know but it sure sounds right", we said. \$9.00 for a full year of right sounds in DX.... \$10.50 brings it airmail. sic friat crustulum....
