

WEST COAST DX BULLETIN

November 22, 1977

47-77

FERNANDO de NORONHA Jemesson Faria, PY7BXC, will be making another effort from the Fernando de Noronha group, the action scheduled to open this last week end and to run until the 27th of November.

Primarily a c.w. operation, the call-sign will be PY7BXC. Back in early 1976 there was another effort by PY7BXC and PY7PO from the islands.

During the coming CQ CW DX Test, he will be trying all the bands. Prior to the Test he will be heard but will shut down the whole operation at 1600Z on the 27th. Some SSB will be heard but the preliminary estimate is that 80% of the action will be c.w.

Look for the station at:

3515kc 7025kc 14025kc 21025kc 28025kc

Gear includes a HW-101 and SB-200. QSLs will be handled by

Fred Souto Maior PY7AZQ
Rua Almeida Belo 241 Apt° 302
Olinda PE
53000 BRASIL

Fred promises 100% QSL. Sae/IRCs will be needed. They are not asking for any assistance but the stay will run to some expenses for hotel and air fare and any support will be appreciated.

HAITI W4ORT, George Werner, will head back to Haiti for a run at the c.w. portion of the CQ WW DX Test. George was there with the North Florida DX group for the phone operation from HH5.

George will be operating from outside Port au Prince and will be signing a HH2 prefix. He is trying for HH2CW or HH2DX. However, he will not know until he arrives what it will be. He expects to be in Haiti and active from next Thursday, November 24th, and through the contest.

George will be aiming for a large single operator/single band score. His operating position will be in the mountains outside Port au Prince and at a good elevation. QSLs will go directly to his home QTH...with the usual sase or sae/IRC needed.

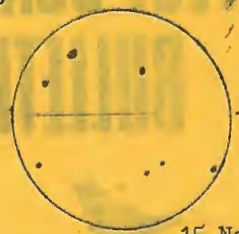

JUAN FERNANDEZ The word from Austin Regal in Chile last week was that they would be on Juan Fernandez by this Monday and before the CQ Test they would be signing CE7ZE.

During the CQ WW CW Test over the weekend of November 26/27th, they would be signing CE7ZM as a contest call. They will continue some activity after the contest and would secure the whole effort on November 29th.

Last Thursday they were in Chile and being worked in the Western Reaches. All the frequencies and QSL information was in previous bulletins.

SUNSPOT LOUIE When this observation was made, geomagnetic conditions had been at major storm levels for the previous 24 hours. The activity was expected to slide off towards the end of last week but unsettled conditions may be with us for some weeks. No. 931 flared the day previous to this chart, it being the largest active area visible for this chart.

Looking down to the CQ WW CW TEST and beyond, N1XX there in the Potomac bottom lands looks for something like, relative speaking, the following

Nov 22nd High..going to
Below Normal
23rd Disturbed
24th Disturbed..but
climbing to LN
25th High Normal
26th High Normal
27th High Normal

K6EC, with the sharp ear for the WWV reports, keeps pushing the flux towards the hundred territory but it persists in lurking in the nineties. Ev tried hard but they all came up as....

Solar Flux Ap Index			Solar Flux Ap Index		
Nov 7th	92	9	Nov 11	97	5
8th	92	5	12	93	14
9th	93	3	13	96	20
10th	95	8			

Seeing that in the other pages we worked ourselves into a corner and failed to list the action for the CQ WW CW TEST, we are making this the clean-up page, the last to be typed:

CQ WW DX TEST CW November 26/27th

JUAN FERNANDEZ	CE0ZM during the contest
FERNANDO de NORONHA	PY0BXC by PY7BXC
HAITI	W4ORT returning for more HH2 action
LESOTHO	7P8BC by some W9s for the Test
GAMBIA	C5AT and G5AV by OHs
MADEIRA ISLANDS	CT3/OH1TV for the TEST
MINAMI TORISHIMA	JA8IEV from JD1 (Marcus)
NAVASSA	Fours and a Five there for TEST
GUERNSEY	Channel Contest Group signing GU4DAA
GRAND CAYMAN	ZF2AW by W8s and VE1
BELIZE	W4DRU there for CW TEST
CURACAO	PJ8CG back again for CW TEST
SAIPAN	K7VPG there operating KG6SW

22 November 1977

OH8OS This OH-station with the tremendous antenna system will be the operating position of OH2BH in the CW CW DX Test next weekend. The station ran up a large number of contacts during the Phone Test, one report saying over 2800 contacts on a singleband/multi operator effort. Martin will be looking to run up another big total in the CW Test. 14050kc will be the frequency....

ERIK Nothing was heard from Erik during the last week....at least in the Western Reaches, and it does seem that his efforts to come on from his present stop was not successful.

Erik was due in Baghdad on November 15th. He had all his gear with him and was looking to get operating permission while there. Undoubtedly if his efforts had been successful, you would have found the bands jumping.

LESOTHO K9VCM, Rollie Crider, and WB9QMJ, Tom Troike, will be viting Brother Jerry, 7P8BC, from this coming weekend and they will be in the contest, at least for Sunday, November 27th.

K9VCM favors c.w. almost to the exclusion of any other mode and if you need 7P8 on c.w., he will be around for a couple of days after the contest.

QSLs for 7P8BC are handled by Bob Davis, K9RD of 942 East Clark Street, Warsaw, Indiana 46580. Bob reports that Brother Jerry is definitely active, some 4600 plus QSOs being in the logs received so far and that only covers activity up to September.

After departing Lesotho, K9VCM and WB9QMJ will make stops in Transkei and Swaziland, S88 and 3D6, before going on to the new homeland that achieves independence on December 6th where they will team up with George Collins, VE3FXT. It would seem that if you need 7P8/3D6/S88 on c.w. the next week or two should offer some good possibilities.

BOPHUTHATSWANA 5LØ is reported to be the prefix to watch for next month when this South African homeland becomes independent on December 6th. VE3FXT is already on his way there to open the necessary amateur action, K9VCM and WB9QMJ mentioned in the foregoing will be joining him as will a number of ZSs. You should be hearing something.

Transkei which became independent a year back is still not being accepted for DXCC purposes. Bophuthatswana will be on the line in December and there are a list of more to come....Venda, Swazi, Lebowa, Ciskei, Basothoqwaqwa and KwaZulu.

With the dragging of heels on the DXCC status, some will wonder if they should jump in to the pile-ups. As any true-blue DX type will tell you, "Work 'em first, worry later!". The odds are that eventually these will be accepted for DXCC counters.

BISSAU-GUINEA 3C1X continues to be heard. Generally showing around 2000Z or a bit later, and just above the band edge at 14200kc. Apparently large list operations appall Hal and though he is trying to hear the stateside stations, sometimes the tumult hampers. At this point patience and courtesy and understanding is sometimes needed in large quantities.

He has been forced to borrow a generator to get on the air but expects to get his own which will allow better operating schedules. TU2EF and W4UL working to get things organized. QSLs go to SM6PF.

AWAKE!

THE GREAT DAYS OF DXING ARE AT HAND.....

And Madison Electronics has that gear that will turn you into the local Big Gun!

Use the DXers Hot Line.....(713) 658 8021.

Ask for Don, W5UW. Insist!! Accept no one else. Don will give you the straight DX scoop. Don understands what the Deserving DXer needs.....

22 November 1977

SHORTLY NOTED The ARRL is very well pleased with the FCC handling of the proposal to put CB types on the 220mhz band. You will get some idea from the illustration.

Again this week we are short on space and long on news. Thus you get the 75% printing and all we can cram in.

We continue to get inquiries on NØRR, Ron Stockton who used to be WB6 but who moved to Colorado a couple of years back and now lives high up in the Front Range.

Ron is handling the AP5HQ QSLs. His address is:

Ron Stockton NØRR
Boyanza Star Route
Nederland, Colo 80466

Sase required.

The EA8CR operation from Tenerife in the CQ WW Phone Test made over 11,000 QSOs and ran up over 23 million points. This should be a record to sweep most everything. The QSOs on each band were formidable....the report says over 3200 on ten; over 3300 on fifteen; over 2600 on twenty, over 1100 on forty. Even the Suffering Sixes were worked on one-sixty.

HI8JAG, often on One-Sixty goes to P.B 460 there in Santo Domingo....not P.B 410 as we had it previously. This is Jose Arzeno of the increasingly active Santo Domingo DX Group which includes HI8WPC/HI8MVF/HI8GAR/HI8MRF/HI8JAF and HI8MFP.

HC5EE, Rick Dorsch, who was out to HC8 a month or so back, has a new post office box there in Cuenca. He used to have Box 253 but ran into problems....mostly that there apparently was another Key to the box and someone was getting there before Rick. His address is now Box 665, Cuenca, Ecuador.

Rick will be leaving Ecuador sometime before long. He needs Alaska, Colorado and Utah. Listen around 21280kc from 2130Z on Saturdays and Sundays or 3530kc from 0400Z. Actually, he needs Alaska on fifteen, Colorado and Utah on Eighty. This will fill out a 5BWAS from Ecuador.

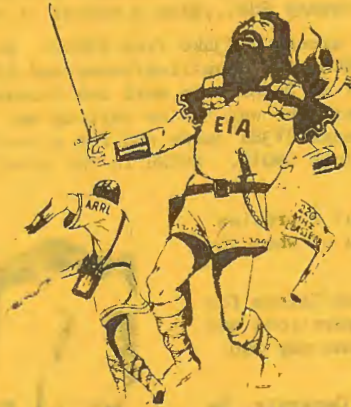

HD1DX was a special prefix for the CQ Phone Test. QSLs for this one go to HC1QRC.

KV4FZ has had another addition to the family, a fourth son on November 8th. Herb says that there is still a lot of DX on seventy five.

You probably have already noted that the conditions across the contest may not be the best. Things may not settle down for some time, you might find some disturbed conditions right after the contest.

We have a lot of QSL information so we will lump it all together in one orderly mess. That always is helpful a couple of months from now when you are trying to locate something.

VR4BT	The Americas and the Pacific QSL to John Lundberg WØVU/WBØIPH 840 Alpine Road, Marion, Iowa 52302 Europe and the U/K go to G4CRY
7P8BC	To Bob Davis, 942 East Clark, Warsaw, Indiana 46580
6W8MM	To Charles Harris, 32 Walker Lane, Bloomfield, Conn 06002
FK8CD	To John F Wojtkiewicz, W7LLC, 10316 Aztec Drive, Sun City, Ariz 85373
YBØACP	To Robert Lawson, K6MQG, 1588 Skyline Dr, Laguna Beach, Calif. 92651
WB7TBK/SU	To WA7JRL.
9H1EY	To Herman Hale, W6SC, 412 East Arbor, Sunnyvale, Calif.
9L1SL	To WA3NCP
JA7ZSQ/JD1	To Tatsuya Sasaki, JH7WKQ, P.O. Box 49, Sendai, 980-91 JAPAN
WA6OYZ/VQ9	Jim Hammack, Box 306, Boise City, Okla 73933
WD9FCC/VQ9	George Menart, W9GM, 1233 MacArthur Ave, Sheboygan, Wisc 53081
9J2SJ/9J2TJ/9J2KC	John White, K8ETO/N8JW, 3629 Delta River Dr, Lansing, Mich 48906
FMØFC	Mike Samarco, 79 Plymouth Road, North Bellingham, Mass 02019

**CB ON 220?
IT'S DEAD!
AND THE ARRL
SLEW IT!**

22 November 1977

MORE SHORT NOTES A51PN has been showing at times on the SEANET...14320kc/1200Z...he was there a couple of weeks back, QSYing up to 14341kc. W1JZ (W1JFL) says that no logs have been received nor any mail at all since March of this year. However, the appearance on the SEANET is encouraging.

WD9FCC/VQ9 after only a week or so on Diego Garcia needed but 13 more for WAS. D4CBS will switch to c.w. if you need that mode. Angelo often on twenty SSB...plus a number of other places.

6W8EX still looking for North Dakota....often around 14034kc from 2100Z. Rusty Schlagheck, W3US/I5 operated HV3SJ during the Phone Test....1200QSOs, 190 countries/zones and 436K points in twelve hours. Somewhere we have notes on someone who set out in October to work one thousand JAs....and did it in fourteen days. We are swamped with notes....all the way to the ceiling and the walls all covered. Getting back to the contest HV3SJ, Rusty has some HV3SJ cards and for a contest QSO only you might try him at Box 567, 56th Signal Company, APO New York 09019. W6KNH is the usual route for the non-contest action by Brother Ed.

Speaking of QSLs, San Fernando Slim slipped out a preview of the S88th QSLs. This will give you an idea of what they will look like

Gene Sykes who had planned to head for the Turk/Caicos for the CW Test has run into a deadend on his preparations and Gene will not be heard from VP5 this time. Gene may run down there later but not this coming weekend.

C5AAB often showing above 21350kc to work the Generals. He QSLs via K4UTE...often heard from 1730kc on fifteen. VK0AH and VK0AC shut down the latter part of November and will be leaving the island. The report is that there are no amateurs in their replacements for MacQuarrie should be a quiet place for some time.

The Kermadec Group got home to New Zealand okay though the trip was a bit rough at times. They were glad to get home, however, and will be cleaning up the odds and ends from the trip. Generally there has been good words for the effort and the determined effort to clean up the demand for Kermadec.

WD9FCC/VQ9, Jake, and WA6OXZ/VQ9, will be on Diego Garcia until next July. K5OVC is working the cold trail of the present address of EA0AC who twenty years back was on Fernando Poo. Anyone know where Juan Medina might be found these days.

N5UR while down in Belize for the CQ Phone Test made over 3800 QSOs, 2515 in the contest, and worked all states and seventy countries. Buzz figures to be mailing QSLs in early January. While down there he also found the logs for VP1WS plus some QSLs that had not been answered. Buzz will answer these via the bureaus. For his contest operation at VP1UR, the address is Buzz Jehle, 6960 Bunker Hill Rd, New Orleans, Louisiana 70127.

Ferne Hughes, the XYL of Rubin in the WA6AHF QSL Bureau, is currently traveling in the South Pacific, plus some stops at Ponape, Saipan and some spots in the North Pacific. As Ferne does all the work while Rubin prints QSL cards, there will be little production of outgoing QSLs until Ferne gets home. This include EP2SV/5W1AZ and YASME actions. Don't look for anything out of the WA6AHF operation until the end of December. EP2SV still looking for South Dakota to finish off a WAS.

While JA8IEV is presently on Minami Torishima (Marcus) and will be there for the CW Test, the KA1S group is thinking of another trip out to the island next Spring.....maybe late March.

Somehow we managed to lose the list of DLs operating HB0 for the phone contest. It took a week of digging but we finally found it.

Those on the HB0BHA operation were DK6NN/DF9GQ/DJ4PX and DJ2EH. QSLs for this go to Horst Henning, HB9BHA, Im Wysechen, CH-3853 Niederried, Switzerland.

9H1EY is ex-3D2AJ. W6SC is the QSL Manager of record but Herman says that the logs have not been received and he has no idea when they may show. Herman does have the 3D2AJ logs for the Fiji operations from Sept 9, 1975 to March 8, 1977 when the station was secured.

OH1TV will be on from Madeira during the CW Test. Look for him at 3502kc/7002kc/14020kc/21020kc/28020kc.....plus or minus the howling QRM.

VP8PL is on the South Orkneys. QSLs to G3LIK. VP8PL often on during the evening hours and advises that those on South Georgia not especially interested in DXing.

Those who get the Call Book on a subscription basis might be wary about whether those which come in the Spring supplement are added to the Summer and Fall so that you get the cumulative list. It does not seem to work that way and those showing in the Spring supplement will not automatically show in the Summer or Fall one. In other words, when looking for a call, you had better check them all.....

About December 5th the sun will be setting the earliest of the year in the Northern Hemisphere, after that it will be setting later as we get to the end of the year. We got into a lot of hassles on that item last year and we are starting the holiday season early this time.....

22 November 1977

REPORTS FROM RED EYED LOUIE

Listen! Listen to him carol the true pitch of DX!
He has always known DX's name, and he has its number.....

TEN THRIVES!! But not as it has....

 (# = long path ??? Slim!! Like the BYs reported last week.)

SOME FINAL SHORT NOTES HC5EE and friends left a TA33 there at HC8GI to try to improve the signal from the Galapagos.

PITCAIRN ISLAND Most amateurs know that the islands for years have depended to some degree on trade with passing vessels...but few come to that part of the Pacific these days. Some of the items traded were local carvings of birds, animals and fishes. The carvings are still available and in a recent QSO with W5RG, Tom, VR6TC, said that these along with a history of the island are available.

The price on the carvings run from \$7.00(US) to \$12.00. A very nice one can be obtained for \$10.00. In the past these carvings have included birds, fishes and turtles. Tom himself will handle these orders if they are sent to him at Pitcairn Island. In the past he has asked for currency sent by registered mail, though this may have changed by now. Checks used to have to be sent to New Zealand for banking.

A history of the island, this illustrated, goes for \$2.50..and the supply of these is limited.

The carvings are well done. They are also a conversation piece. The future of Pitcairn and the colony there is more doubtful as the years pass. The average age of the population is getting older and there is little for the youths there to keep them on the historic place. You may consider getting something with a historic connection that may not be available sometime in the future. The address is: Tom Christian, Bx 1 Pitcairn Island, South Pacific....via New Zealand

ARRL The Repeater regulations stemming from Docket 21033 have been delayed in their implementation, petitions having been filed asking for reconsideration.

The amended regulations were to go into effect on November 4th. Until things are decided, the old regulations continue in effect and the new repeater sub-bands and the technician segment are not in effect.

FRENCH ANTARCTIC FB8WE on Crozet is being heard. Action goes on at a number of frequencies and the station has been reported at 14019kc from 1600Z...at 14115kc at the same time and at 14020kc from 0600Z. Name is Jean Claude. FB8ZL on Amsterdam and St Paul Islands is reported around 14114kc from 1730Z

47-77
WEST COAST DX BULLETIN Published every week by the Marin County DX Group. One of the local QRPers is always going to those area radio meetings or conventions and having been to one recently, he was up the hill to report. "Things went pretty well," he said, "but the more I go to these meetings, the more I wonder." We knew that this was leading us to something and we had not long to wait. "How is it," the QRPer continued, "that when you get to these meetings you generally will find the traffic types milling around in one group, the VHF and repeater types in another, and a couple or so more special groups giving each other the secret grips. But you find the DX types wandering around, not getting into any group but apparently serene in their existence. Why is it....or haven't you ever noticed it?" Son of a Gun!! This was a question that had been asked before and, happy to note that this was another thinking DXer, the answer was easy in coming. "Simple," we said, "all those others need to seek kinship with their kind to develop their need to belong and to shield themselves from feelings of insecurity. But DXers are the amateurs who are in all worlds, all actions and everywhere. He is secure in his competency, knowledgeable of events. DXers are always like that....everywhere!! You certainly must have noted it before?" The QRPer was silent for a bit. "You are right," he finally said, "it is just so obvious." And again we had to wonder how some can miss recognizing the Eternal Truths. For DXers are different. And DXers need envy no one....but other DXers! DXers are the leaders and the doers. And for \$14.00 a full year of the weekly reminders of the glory of DXing will come your way in the U.S. by second-class mail. \$18.00 roars it down the long road to the U.S./VE/XE areas by first-class mail while \$20.00 sends it forth by airmail to all the DX lands far down the rose dawn. For, as Sam would often say: "Never mind the vite élan...just bring DX."
